

# ACCESSORIES

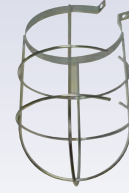

## GUARDS

These die cast guards have inside threading and a set screw to lock the guard in place.

CAT #	DESCRIPTION
GD100CGS	Cast Guard 100 Series
GD200CGS	Cast Guard 200 Series

These chrome plated guards have a nut and bolt to secure the guard to the fixture. Please note these guards will fit on fixtures that have polycarbonate or plastic globes.

CAT #	DESCRIPTION
GD100CL	Wire Guard 100 Series
GD200CL	Wire Guard 200 Series

## REFLECTORS

Highly reflective white powder coat paint finish inside and out over a heavy gauge metal base. Reflector is attached to globe holder ring by four screws so that it and the guard are removed during relamping.

CAT #	DESCRIPTION
VR100A	30° Angle Dome 100 Series
VR200A	30° Angle Dome 200 Series
VR100-16	16" Standard Dome 100 Series
VR200-16	16" Standard Dome 200 Series

## GLOBES

Various globe options are available to fit our standard weatherproof fixtures in both the 100 and 200 series. Below are the polycarbonate and glass globes available.

For coloured glass our RGL series is superior in that it retains its' colour longer than painted glass. This is achieved by having the colour impregnated into the glass as it is being made. Available colours are amber, blue, green and red.

### GLOBES 100 Series

	CAT #	DESC.	MAX. WATT (Inc.)
	GL100	Clear Glass	100
