PRODUCT DESCRIPTION

Smallest dimmable Class II hardwire LED dimming magnetic power supply on the market that works with conventional low voltage magnetic wall mount dimmer with on/off switch. Features include high efficiency, excellent load regulation and no wattage de-rating under 100% load. There is no minimum load requirements for this transformer/driver.

PRODUCT SPECIFICATIONS

Construction: Transformer is encapsulated in all metal construction enclosure. Enclosure temperature should not exceed 70°C (158°F) @ 40°C (104°F) ambient. Wiring compartment has 2 knockouts sized for 3/4" screw cable conductors. Removable cover for wiring compartment is secured in place by clips and one screw. Black powder coated.

Electrical: Input and output terminals are terminal block. Input leads are 20 AWG. Output leads are 16 AWG. Lead insulation rated to 105°C (221°F). Transformer utilizes a class B 130°C (266°F) insulation system. Maximum load is 30W. Coil former is double section bobbin. Auto reset.

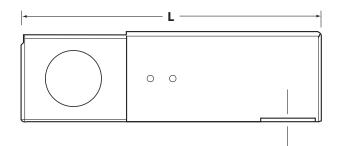

Dimming: Works with low-voltage magnetic wall dimmer with on/off switch.

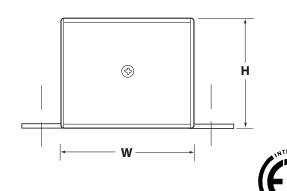

Mounting: Surface mount with front mounting tab.

Warranty: 4 years.

Label: ETL listed for indoor and outdoor use.
