

# Low Voltage Mounting Brackets

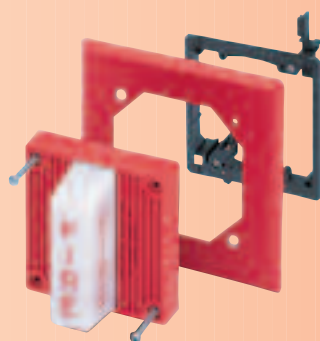

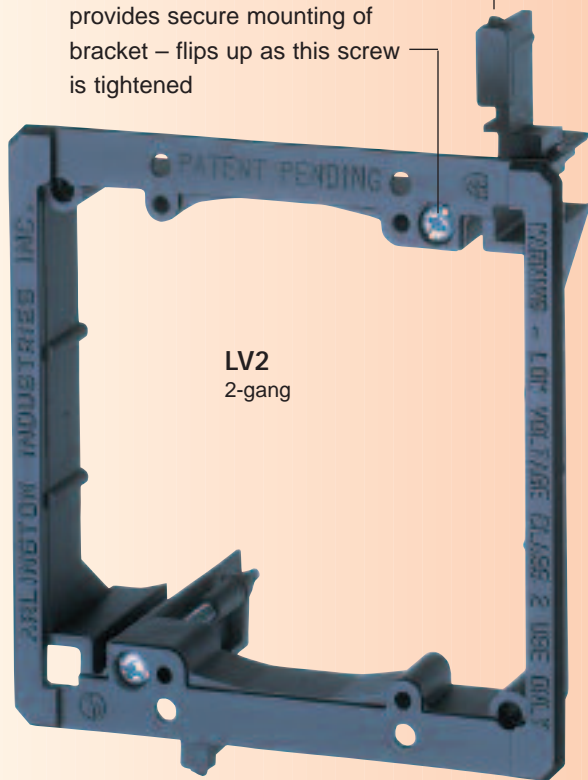

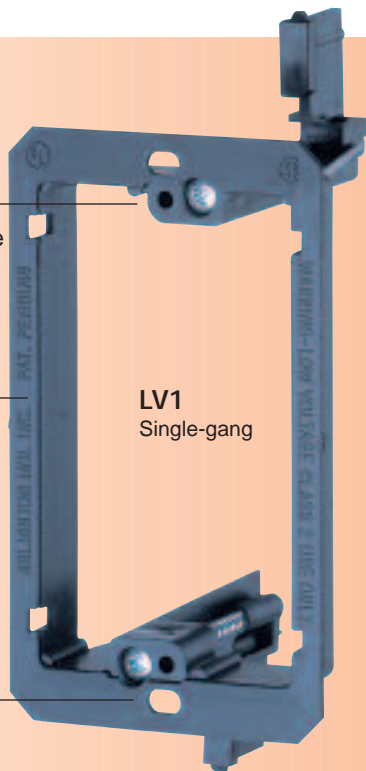

For Low Voltage Class 2 wiring in *EXISTING CONSTRUCTION*

**Recessed Screw Hole**  
Seats wall plate flush with wall surface

**Thin Front Lip**  
Seats better on drywall –  
Keeps wall plate flush to wall

**Oval Hole**  
Allows lining-up and final  
straightening or shifting of device

**Wing Design**  
provides secure mounting of  
bracket – flips up as this screw  
is tightened

*LV2 for the  
installation of  
fire alarms in  
existing construction*

Arlington's non-metallic, Low Voltage Mounting Brackets are the time and money-saving solution for faster and easier mounting of Class 2 communications, computer and cable TV wiring.

Designed to mount wall plates flush, **LV1** and **LV2** mounting brackets offer features – specially designed screw holes and more (shown left) – that deliver a better-looking, easy to install job.

- Adjusts to fit 1/4" to 1" thick wall board, paneling or drywall
- Bracket is its own template for cut out
- Horizontal or vertical mounting
- UL, CSA Listed
