${ }^{1}$ Solid or stranded for 14-10 AWG.
${ }^{2}$ Use additional suffix "BP" (THQC32020WLBP) for bulk pack of 48 poles. Carton weight 20 lbs . 15-60 ampere breakers only.
${ }^{3}$ Suitable for mounting on standard 35 mm DIN Rail. Refer to table on page $3-23$ for termination options.
${ }^{4}$ UL listed as SWD (switching duty) rated. Suitable for switching 120 Vac fluorescent lighting loads.
UL listed HACR (heating, air conditioning and refrigeration). Refer to Q-Line accessories listed on pages 3-26 to 3-27.

Tri-Break ${ }^{\circledR}$ Line<br>-Integrally Fused Thermal Magnetic Circuit Breakers<br>- Integrally Fused Magnetic Circuit Breakers<br>- Integrally Fused Molded Case Switches

These breakers are available in three types. Type TB1 (15-100 amperes) product numbers include frame, trip, line and load lugs, and current limiters all factory assembled. TB6 (300 to 600 amperes) and TB8 (600 to 800 amperes) include frame, trip and limiters, factory assembled, but do not include line or load lugs. If line and load lugs are required, order separately. Unless otherwise noted, TB1, TB6, and TB8 breaker components are UL listed in File E-42263. Fused molded case switches are UL listed in File E-57546.

## Mag-Break Line

- Magnetic only circuit breakers (motor circuit protectors)

These breakers are available only with noninterchangeable adjustable magnetic trip, in frame Types E, F, J, K, and Tri-Break ${ }^{\oplus}$. All breakers are shipped factory assembled, complete with Cu/Al line and load lugs.
All magnetic only circuit breakers and limiters are UL Component Recognized in Files E-11592 and E-66390, respectively, unless otherwise noted.

## Spectra ${ }^{\oplus}$ RMS

-Circuit Breakers
Determine the required breaker frame, IC rating, and load requirements. Select frame, trip unit (rating plug), and lug, if required, product numbers from the tables on pages 3-46 to $3-54$. For Spectra® breakers with MicroVersaTrip ${ }^{\oplus}$ Plus or MicroVersaTrip ${ }^{\oplus}$ PM Trip Units refer to pages 3-57 through 3-65. Select field-mounted internal accessory product numbers, if required, on pages 3-70 and 3-71. Select fieldmounted external accessory product numbers, if required, on pages 3-97 through 3-107 and pages 3-66 to 3-69 for Spectra® breakers with MicroVersaTrip ${ }^{\oplus}$ Plus or MicroVersaTrip ${ }^{\oplus}$ PM Trip Units. Order as separate items.

- Mag-Break Motor Circuit Protectors Determine the required frame and ampere requirements. Select frame, trip unit (rating plug), and lug, if required, product numbers from the table on pages 3-73 through 3-75. Select accessories as noted above for circuit breakers. The same accessories are used with both circuit breakers and motor circuit protectors. Order as separate items.
- Molded Case Switches

Determine the required frame and ampere requirements. Select frame and lug, if required, product numbers from the table on page 3-72. Rating plugs are not used. Select accessories as noted above for circuit breakers. Internal accessories do not require dummy trips. The same accessories are used with both circuit breakers and molded case switches. Order as separate items.

Unless otherwise noted, all circuit breakers are UL listed in File E-11592. Molded case switches are UL listed in File E-57546. Field-Installable Internal Accessories are UL listed in File E-57253. Distribution Cable Accessories for MicroVersaTrip ${ }^{\oplus}$ Plus Trip Units and MicroVersaTrip ${ }^{\oplus}$ PM Trip Units are UL listed in File E-57253.

## Accessories

Order accessories from the appropriate table:
-Thermal Magnetic Circuit Breakers, Magnetic Circuit Breakers, and Molded Case Switches ${ }^{1}$-pages 3-39 to 3-45 and 3-97 to 3-107.
-Spectra ${ }^{\oplus}$ RMS Breakers-pages 3-70 to 3-71 and 3-97 to 3-107.
-Spectra ${ }^{\oplus}$ RMS Breakers with MicroVersaTrip ${ }^{\oplus}$ Plus Trip Units or MicroVersaTrip ${ }^{\oplus}$ PM Trip Units-pages 3-66 to 3-71, and 3-96 to 3-107.
${ }^{1}$ Installation of accessories in molded case switches requires dummy trip; see page 3-45 for information. Dummy trip not required for Tri-Break ${ }^{\oplus}$ or Q-Line molded case switches.

Molded Case Circuit Breaker and Switch Terminal Configuration Code
Order standard Cu/Al lugs by using suffix codes presented. Order lugs separately if special lugs are required. For optional lugs, see pages 3-101 and 3-102.

## Quick Reference Guide

Ratings do not apply to molded case switches.
The interruption ratings and voltages shown in the table are maximum ratings. A circuit breaker of the type given in the lefthand column may be applied at the given circuit voltage in any electrical distribution system where the available fault current at the load terminals of the breaker does not exceed the value in the table. That circuit breaker type may also be applied at intermediate values of circuit voltage provided the available fault current at the load terminals of the breaker does not exceed the value in the table for the higher value of voltage.

${ }^{1}$ UL listed as HACR (heating, air conditioning and refrigeration).
${ }^{2}$ Not UL listed.

## Molded Case Circuit Breakers

## Q-Line Circuit Breakers

## DIN-Rail Mount

240V Class

## Product Features

Multi-terminal Configuration Breakers
-35 mm DIN rail mounting
-Optional front/rear panel mounting kits-THQCFMK, page 3-26.
-Optional load end terminal for up to (4) 0.25-inch quick connnects.
Contact local GE sales office for ring terminal configurations-not DIN rail compatible.
