E-Z-Code®
EZL-100 Thermal Label Printer

At last, a label printer designed for electricians and the way they work. T&B's new EZL-100 Label Printer packs everything you need to make wire marking fast and simple.

- **One-touch Hotkeys** create labels instantly for Wire Wrapping, Terminal Blocks, Device Covers, Patch Panels, and Labels in a series
- **Symbols** for commonly used electrical and datacom applications including ohm, ground, phone, data and fax
- **Five Print Sizes** including XS, S, M, L and XL
- **Horizontal and Vertical** print orientation
- **Automatically Underlines 6 and 9** to prevent confusion on wire and cable
- **Memory** to automatically recall last label and stores up to eight custom labels
- **Battery Life Indicator** to warn for low battery power on the job
- **Auto-shutoff** saves battery life by turning power off after five minutes (if idle)
- **Backlit Display** can be turned on in low light conditions
- **Multiple Line Printing** permits up to four lines per label
- **Barcode Printing** of two of the most commonly used barcodes - Code 39 and 128
- **Durable/Non-smearing** thermal transfer technology
- **Multiple Power Sources** uses six "AA" batteries or AC adapter (not included)
- **Large Display** with 2-line x 15 character views (30 characters total)

Won't Smear
Easy to Use

Easy Bar Code Printing

Great for Rough Surface Cables

High-Visibility Print

Quality labels that stick and last
- Flexible Nylon Material – excellent for wire and cable wrapping on curved, textured and highly textured
- Permanent Polyester Material – good for general labeling on flat or textured surfaces
- Prints on heavy duty $\frac{1}{4}$", $\frac{3}{8}$", $\frac{1}{2}$" and $\frac{3}{4}$" tapes
- EZ-Peel Labels in an easy-to-load cassette

Specifications

Dimensions:	4.5" (114mm) wide x 8.3" (212mm) high x 2.8" (70mm) deep
Weight:	2.0 lbs. (890 grams)
Power:	9 volts DC, using 6 "AA" Batteries or AC Adapter

Heat Shrinkable Markers For EZL-100 Printer

Heat-shrinkable sleeves are now available for T&B's EZL-100 Wire Marder Printer. Panel builders, maintenance electricians and other OEMs have the flexibility to print heat-shrink sleeves on the spot when they're needed.

The sleeves can be shrunk onto the wire or cable using a heat gun without the need for sticky adhesives. The sleeves may also be aligned and held in place on the wire before shrinking. Since the sleeves are a continuous roll, installers may select different lengths using the same cassette.

• 1/4", 3/8", 1/2" and 3/4" sizes

• Available in bright yellow and white colors

• Clear, non-smudging lettering and chemical/solvent resistance

• Flame retardant, Polyolefin material, 3:1 shrink ratio offers extra protection and insulation to the wire or cable

   Meets the performance requirements of MIL-DTL-23053/5 classes 1 and 3

E-Z-Code® Heat Shrinkable Wire Markers

Cat. Number	Description	Std. Qty.	Weight/Ea	UPC Number
