

M18™ REDLITHIUM™ HIGH OUTPUT™

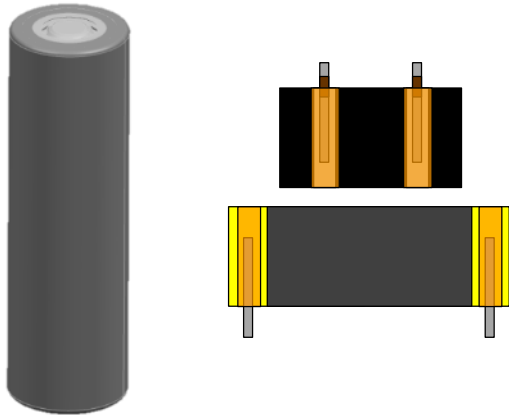

HIGH OUTPUT™

**50% MORE POWER
& RUNS COOLER**
VS REDLITHIUM™

HIGH OUTPUT™ ADVANCEMENTS

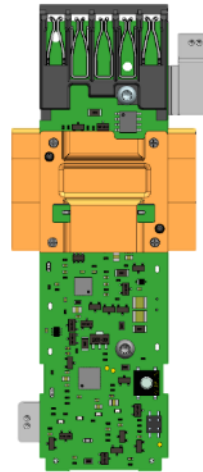

CELL

REDLITHIUM™ HIGH OUTPUT™ CELL

- ✓ New to world 21700 cell has 46% more volume vs the 18650 cells developed over the last 10 years
- ✓ Advancement in mechanical design and chemistry provides significantly lower impedance (higher power)

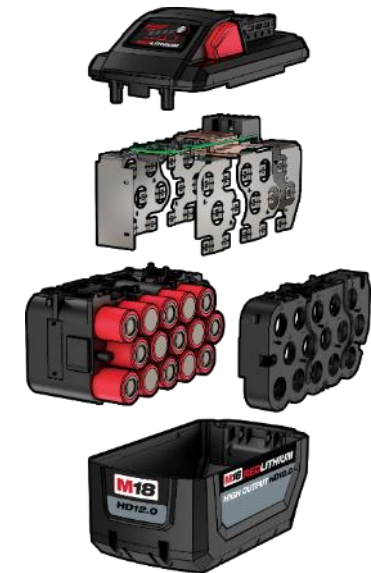

ELECTRONICS

REDLINK™ INTELLIGENCE

- ✓ Upgraded power management system provides full power to tool
- ✓ Advanced intelligence & communication to drive system compatibility

PACK

SUPERIOR PACK CONSTRUCTION

- ✓ Minimizes heat generation, allowing for cool operation
- ✓ Most advanced protection against jobsite conditions

M18 REDLITHIUM™ HIGH OUTPUT™ HD12.0 Battery Pack

Pre-Order Date: **05.01.18**

Launch Ship Date: **07.01.18**

- **50% More Power**
 - Provides 50% more power than M18 REDLITHIUM HD9.0 battery
 - New to world 21700 cell technology and advanced electronic power delivery system provide next breakthrough in lithium-ion
 - Faster application speeds and increased application range
- **Runs 50% Cooler**
 - Runs 50% cooler vs M18 REDLITHIUM HD9.0 battery
 - Temperature control cell frame minimizes heat generation, so users can run harder and longer
 - Allows for full discharge under the most demanding conditions
- **33% More Run-Time**
 - Delivers 33% more run-time vs M18 REDLITHIUM HD9.0 battery
 - Most delivered work per charge of any pro power tool system, driving users to cut the 15A cord
- **Cold Weather Performance**
 - Best cold weather performing pack ever made
 - Operates down to -20F during heavy applications
- **The M18 System**
 - Elevates the performance of the entire M18 system
 - Forward and backward compatible with 150+ M18™ solutions
