

RadioRA 2 Pico[®] wireless controls

RadioRA 2 Pico wireless controls provide homeowners with a simple and elegant way to operate lights and shades/draperies. The Pico wireless control is battery operated and requires no external power or communication wiring.

RadioRA 2 Pico wireless controls feature large, easy-to-use buttons. These buttons are available with 'Light' or 'Shade' engraving

The versatile design of the Pico wireless control allows it to be used in various applications. The Pico wireless control is small and portable allowing it to be used as a handheld control. It can be also be used as a tabletop control with or without the Tabletop Pedestal (sold separately).

The Pico wireless control can be mounted to the wall in a variety of ways. It can be installed directly on a wall with or without a wallplate in either single or multiple gang installations.

Use only Lutron[®] Designer (Claro[®] or Satin Colors[®]) wallplates. The mechanical design of the Pico wireless control is NOT compatible with non-Lutron wallplates. Wallplates are sold separately. Lutron Claro and Satin Colors wallplates snap on with no visible means of attachment.
