Features

Led Strip

Rated for 25,000 hours, this 12", 12V LED strip boasts an even light distribution with a linear light beam spread of 120 degrees. Energy-efficient and mercury- and UV- free, the strip is cool to touch.

Power Supply

The standard driver for LED strip lights is a Class 2, 6W driver that plugs into a standard 120V AC outlet. The driver comes with a 6' cord and rotary switch. A maximum of 3 strips can be connected per 6W driver. Driver sold separately. For additional driver options available for longer runs, see accessories below.

Light Output

Available in 2700±300K colour temperature with a light output of 130 lumens per strip.

Linkable

The LED strips are linkable via direct connection or flexible connectors; LEDSTR-FC (sold separately) add additional lengths of lighting to single power supply (driver) to accommodate longer runs.

Mounting

Each LED strip light is provided with two types of clips to accommodate different mounting angles (35° and 0°).

Applications

Excellent for task and accent lighting in kitchen cabinets, coves, furniture, backlighting and many other applications.

Description

LEDSTR1K is a 12V 12" LED strip light that provides effective under cabinet illumination and backlight for kitchen cabinets and coves, displays, furniture etc. The 2W strip itself is cool to touch and energy-efficient while providing 140 lumens of light output with 2700±300K colour temperature..

Notes: Accessories should be ordered separately. For additional options please consult your Liteline representative. Due to our continued efforts to improve our products, product specifications are subject to change without notice.
