Onelink™

Wi-Fi Smoke & Combo Alarms

Always Protected

A 2-in-1 wireless combination smoke & carbon monoxide alarm, equipped with a 10 year battery that lasts the life of the alarm. No annoying low battery chirps in the middle of the night. No wobbling on a ladder to replace batteries. Premium protection that just works.

Always Connected

Remote access to your alarm means you will be notified in the event of a smoke or carbon monoxide emergency in your home from anywhere. From the palm of your hand, you will be alerted to the type and location of danger and can call 911 directly from the app.

Connected

Smoke & Fire

Carbon
Monoxide

Voice w/
Location

Free App

AC/DC

Photoelectric Smoke Sensor

Helps reduce false alarms caused by cooking smoke or shower steam.

Free App

From the app, easily test & silence the alarm. Users can track historical CO levels and battery life. Finally, users will receive an end of life warning, signaling the need for a new alarm, helping reduce the likelihood of an unprotected home.

Exclusive Talking Alarm

Exclusive voice and location technology tells you the type & location of the danger to help find the safest path to an exit. Choose from 13 pre-programmed alarm locations.

Wireless Interconnect

This alarm wirelessly interconnects with other Onelink enabled wireless alarms in the home. When one alarm is triggered, all alarms will sound, alerting you to the danger no matter where you are in the home.

2-in-1 Protection

Detects smoke and carbon monoxide in one alarm. Provides best protection with less alarms installed throughout home.

10-Year Battery

The 10-year battery lasts the life of the alarm, meaning no more hassles of replacing batteries.
