

# **P&S** **GFCI** **Receptacles**

MEETING THE 2006 UL® REQUIREMENTS  
WITH OUR TOUGHEST GFCI EVER.

**Pass & Seymour**

■ THE ONE THAT WORKS FOR YOU®

 **legrand®**

## **P&S innovations — from the first GFCI receptacle to SafeLock™ Protection.**

**The broadest  
range of  
ground-fault  
protection.**

In 1971, we introduced the first GFCI receptacle. Soon, our invention was preventing injuries and saving lives throughout North America.

That spirit of innovation and commitment to safety continues. In 2006, we introduced our most advanced GFCIs ever. They don't just meet the new 2006 UL® GFCI requirements — they exceed them to provide optimum safety and durability.

P&S GFCI receptacles provide more complete protection against electrical shock. In addition to disconnecting power to the receptacle if there's a ground fault, they also deny power if the receptacle is miswired or if it fails. Power to a GFCI receptacle without protection is an unsafe condition. And our GFCIs prevent it.

Today, you'll find P&S innovation and safety throughout a broad range of GFCI products — products that offer new versatility, save installation time and solve problems. And products that continue a proud safety tradition that we began over 30 years ago.

Choose P&S GFCI products for innovation — and for all your ground-fault protection needs.

**Where a safety revolution began:  
the first GFCI receptacle — created  
by P&S in 1971.**

Innovative features **add safety, speed**  
**installation** and **ensure durability.**

**Nickel post-plated mounting strap** for superior corrosion resistance.

**High-impact-resistant, thermoplastic construction** for superior strength and durability.

**Captive screws for easier installation** — won't get lost.

**1/4" thinner than competitors' GFCIs** to leave more room in the box.

2095-LA

**Ground terminal back-wire clamp** for fast installation.

**Trip indicator light** makes it easy to identify a tripped condition.

**Two back-wire holes per termination** add wiring flexibility, eliminate pigtailing and save box space.

**Side or internal screw-pressure-plate back-wire termination** speeds installation; takes #14-#10 AWG stranded or solid, copper or copper-clad conductors.

**Patented SafeLock™ Protection for more safety** — shuts off power to the receptacle if there's a ground fault, if the GFCI is miswired, and even if the GFCI fails.

**The most durable GFCI available** — exceeds UL943 voltage surge requirements; survives 100X the required UL 3kA/6kV voltage surge test cycles.

**All P&S GFCI Duplex Receptacles meet Fed Spec requirements** — FSUL Listed (Federal Specification WC596).

**Meets 2006 UL® requirements.**

1595-NTLLACC4

The first LED Nightlight/GFCI Combination — **perfect for bathrooms.**

- Sealed nightlight with Lexan® lens prevents tampering
- LED illumination with a 20-year life expectancy means no bulbs to change
- Photocell turns nightlight on in dark, off in daylight

Switch/GFCI Combination Devices — **ideal for remodeling.**

- User-preferred up-and-down switching
- Available in one- and two-switch models
- More function in a single-gang box or space
- 15A single-pole switches rated for 1/2 HP motor loads — perfect for bath and kitchen vent fans or garbage disposals

1595-SWTLACC4

1595-2SWTLACC4

1595-SLA

The Auto-Ground GFCI **speeds commercial-building installation.**

- Rugged, specification grade design fights callbacks and ensures durability
- Standard auto-ground clip ensures solid ground connection to metal box

Illuminated GFCI **makes spotting use of back-up power easy.**

- Light on when power is available
- LED turns off when unit has tripped or power has failed

2095-HGLAL

1595-TRLACC4

The first Tamper-Resistant GFCI **helps keep children safe.**

- Patented internal sliding shutters prevent children from sticking objects into the receptacle
- UL®-Listed shutter system

Portable GFCI **adds safety on the job.**

- Ideal for power tools, portable signs, pressure washers, grounds-keeping equipment and wet vacuums
- Rugged polycarbonate housing resists impacts
- Available in a wide variety of 15A and 20A models
