

USB/Multi-Outlet Charging Station

PX1003

USB/Multi-Outlet Charging Station converts an existing duplex receptacle to 3 power/4 USB outlet with a surge protector. 2.0 Amp USB output is compatible with tablets, smart phones and other devices. Built-in cable management reel helps keep cords organized and off the floor. Accommodates up to 7 appliances/devices while providing surge protection.

features & benefits

- **Add power to your existing outlet:** 3 power outlets and 4 USB ports allow for 7 devices to receive power simultaneously.
- **Surge Protected:** Protect your devices from dangerous power surges.
- **Cable management reel:** Gathers excess cords.
- **Easy Installation:** Simply remove wall plate from existing receptacle and screw into wall plate holes using the screws provided.
- **Universal Compatibility:** 2.0 Amp USB output is compatible with tablets, smart phones and other devices.
- **USB Output - 2A, 5V total:** Will charge 2-3 smart phones, 4 basic phones or 1-2 tablets, depending on device type and battery level. Overloaded units will go into protection mode as seen by device cycling. To resolve, disconnect a device and resume charging.
