DIMMERS THAT WORK IN HARMONY WITH YOUR NEEDS.

HARMONY™ DIMMERS HAVE ALWAYS BEEN KNOWN FOR STYLE. But now, thanks to customer input, they're known for simplicity as well. It started with the newest member of the Harmony family, the Tru-Universal Dimmer, which was created to meet demand for a single dimmer for every lamp and load on typical residential and light commercial wiring. Many of those same simple features have been applied across the entire family, and include:

- Wider slide controller for easier dimming operation
- Ergonomic slider grip for more intuitive finger control
- Larger paddle switch that's easier to see and use
- Sleek, modern design that matches today's styles

NEW LOOK, NEW FEATURES, NEW FAMILY MEMBER.

WHERE SIMPLICITY MEETS STYLE

Every dimmer in the newly upgraded Harmony Series is available with multiple cover kits in a variety of popular colors. Each dimmer also has a green LED light that glows when the light is turned OFF, making it easier to find in the dark.

Harmony Dimmers are packaged with three interchangeable face colors: White, Ivory, and Light Almond. Other color faces available too.

MEET THE HARMONY FAMILY OF DIMMERS

NEW

HARMONY TRU-UNIVERSAL DIMMERS

- Works with every lamp and load
- Self-calibrates to match lamp type
- Eliminates flickering and poor performance
- Incandescent, Halogen & ELV: 700W, MLV: 500VA, LED/CFL: 450W, EFL: 5.5A

HARMONY CFL/LED DIMMERS

- Compatible with a wide range of dimmable CFL/LEDs*
- 450-watt rating
- Extended bulb life and energy savings

*with the exception of 0 – 10V LED drivers

HARMONY INCANDESCENT DIMMERS

- Works with all incandescent lamps
- 700W, 1100W models available
- Works with standard 3-way switches and wiring

HARMONY FAN SPEED CONTROLS

- Convenient operation — combines ON/OFF switch with separate slider for speed control
- Works with standard 3-way switches and wiring
- 1.6 amp rating
