HDMI Connectivity

1080p, 4K and 3D video
Dolby TrueHD & DTS-HD Master Audio
Audio Return Channel (ARC)
HDMI Ethernet (100 Mbps)

- AC2Mxx-BK – HDMI Cables
  - CL3 rated for in-wall use
  - 0.7 Meter (2ft) – 20 Meter (65ft)

- AC2100 – HDMI Repeater
  - 20M max In/Out
    - Required when using cables longer than 10M
  - Powered by the HDMI

- AC2101 Female to Female Coupler
- AC2103-V1 Female to Male Coupler
  - Hinged for better cable management

Wired Network

DA1004

Default IP:
192.168.40.254

Enclosure Mounted 4-Port Fast Ethernet Router/Switch

- Shares Internet connection with up to four computers at 10/100 speeds

- Features four 10/100 LAN ports

- Features one 10/100 WAN port

- Enhanced firewall protection for secure network connections

- Includes router disable "MODE" switch when customer has existing router

- Becomes a 5-Port 10/100 switch with routing disabled

- Requires a 12V power supply

4-Port Fast Ethernet Router/Switch
DA1004

ROUTING
ON OFF   RESET
WAN jack inactive when
routing is switched off

WAN

100   LNK / ACT

POWER
12VDC / 4W
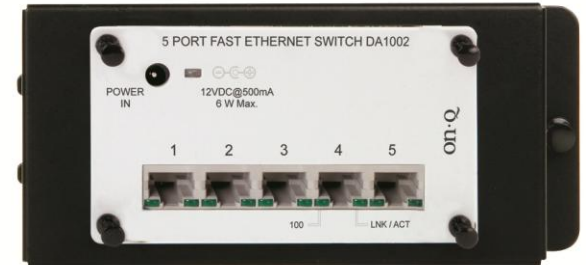

12V power supply required
(not included)

Wired Network

DA1002

Enclosure Mounted 5-Port Fast Ethernet Switch

- Expands Internet sharing at 10/100 speeds

- Features five 10/100 Mbps fast Ethernet network ports

- Requires a 12V power supply

12V power supply required (not included)

EZ-RJ45 Connectors

Cat 5e & Cat 6 Connectors

Coax Network

DA2204-V1

4-Port Coax Network Adapter

- Creates ultra-fast networks using existing coax wiring

- Enables the fastest networks for streaming HD content and video

- Encrypted so content stays secure

- Can coexist with cable TV or off-air systems

  - Perfect for retrofit installations

- Install up to 16 nodes/adapters per network

  - 2 Coax Adapters required per install

- Ideal for use at entertainment centers that require high bandwidth

  - Internet TVs

  - Blu-ray

  - Gaming systems

Coax Network

Coax Network Accessories

VM2201-V1
VM2202-V1
VM2203-V1
VM2204-V1
VM2200-V1

- Optimized for use with coax networking systems

- MoCA, HDTV, & Digital broadcast ready

- 1.525 GHz bandwidth for current and future enhanced coax networks

VM2201 – Digital Cable Amplifier

- 14.5 dB gain

- (1) RF input & (1) RF output

- (1) Power supply (12VDC/200mA) included

VM2202/03/04 – Digital Cable Splitters

- Exceeds performance standards set by major cable providers

VM2200-V1 – MoCA Blocker

- Protects the home network by blocking it from outside the home

  - Not needed if an amplifier is installed
