Table Boxes bring technology to the point-of-use

Table Boxes bring technology into the user's work area. Routing of power, communications and A/V connectivity to the work surface needs to be unobtrusive with maximum accessibility and flexibility. Our wide range of table box solutions offer the flexibility to meet the connectivity and power configurations requirements needed to run business smoothly, while enhancing the overall room appearance. From desks to lab benches, table boxes make technology easily accessible to the user.

A TableSource Table Box installed in a typical work surface application.

FEATURES & BENEFITS

■ **Range of solutions.** Table Boxes allow you to access services on, above or below the work surface with cord-ended or field-wired options. Standard off-the-shelf, field configurable or custom configurations are available to meet any work area need.

■ **Variety of applications.** Office workstations, conference rooms, even home offices can increase productivity by bringing access to connections up to the work surface.

■ **Safety.** Wiremold Table Boxes meet U.S. and Canadian safety standards.

■ **Aesthetics.** Elegant yet functional access to services includes cover style and color options to meet room décor. Built-in cable management with easy to install and replaceable retractors for communications and USB cables keeps the work surface clear.

■ **Ease of installation.** From placing a cord-ended unit in an existing desk grommet, clamping on the edge of a table, or using the supplied template to create the cut out, Wiremold Table Boxes are made easy to install so you can get back to business.

Clockwise from the left: deQuorum™ Flip-Up Table Box, TableSource™ Table Box, Desktop Power Center and Desk Module.
