LEVEL JACK

LOW VOLTAGE DATA/COM MUD RING

HOW DOES IT WORK?

Alignment tabs reach
across wood/metal
studs to level low
voltage outlets with
A.C. boxes.

Part #LJ50R
#LJ58R
#LJ100R

No tape measure • No level required

Available in 1/2", 5/8" and 1" rise

EXTRA OFFSET:

- Allows use of all standard fittings
- Reduces A.C. interference to low voltage devices
- Improves drywall finish

If you're fussy about your rough-in layout, the Level Jack makes life easy. If you're not, no one will notice because you can't screw up with the Level Jack. Just clip it on to the AC box and screw it down. No level, no tape measure, no special boxes, no special fittings required. Level Jacks fit most AC boxes. See the cartoon for details.
