Overview

Low cost AC plug-in clocks are available in Arabic and 24-hour styles. Each of the models come in either a black or grey case with a white dial. All plug in models are CSA listed and operate on 120VAC (60 Hz) and come complete with a plug and a 6 ft. (1.8 M) supply cord.

The battery operated clocks come in either a black or grey case with a white dial and a glass lens, have a high quality quartz crystal movement and use 1.5V "C" size alkaline batteries (not supplied).

Standard Features

- **Plug in and battery operated types**
- **12" and 15" sizes**
- **Arabic and 24-hour styles**
- **Surface mounting**
- **CSA Certified**

Applications

Industrial plants, offices, public buildings, schools, hospitals, terminals, anywhere that economy and a neat appearance are a consideration.
