Jazz ≋ 🌀

Photos / pages 4, 7 & 9

Installation height 39 3/8 in (100 cm)
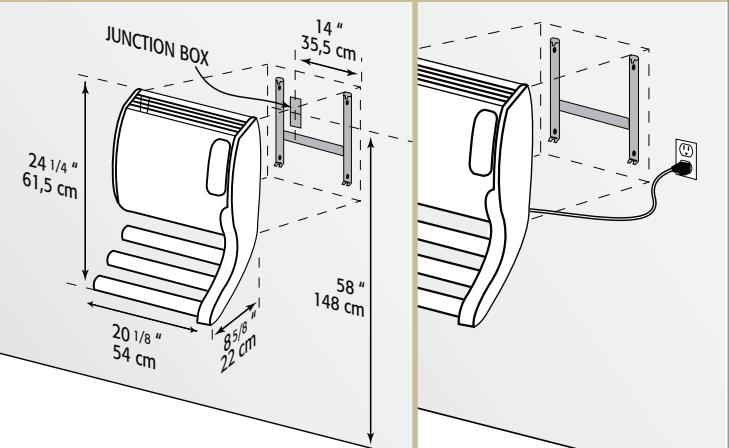

Clearances
■ **Front:** 20 in (50 cm) ◀▶ **Sides:** 6 in (15 cm) ▲ **Above:** 12 in (30,5 cm).

Installation Quick-mounted surface installation with easy snap-on bracket.

Connection 240-V unit: Flexible cord connection, including junction box.
Installation requires 2 in X 3 in wall box (not included).
120-V unit: Plug-in connection with 6 ft flexible cord.

Note 240-V unit: 3-conductor cable or 2-conductor cable with a third wire should be used if unit is to be linked with the Convectair Programmer module (7392 FP).

HEATING ELEMENTS

Total capacity *1500 (120V) or 2 000 W (240V)*

≋ **Convection (750 (120V) or 1 000 W (240V))** X-shaped, monoblock element made of surface-treated extruded aluminum.

🌀 **Fan-forced heat on demand and towel drying (750 (120V) or 1 000 W (240V))** Low-thermal-mass heating element combined with low-pressure tangential blower.

Thermal protection - Convection Manual reset overheat protection.

- Fan-forced heat Resetable overheat protection. Reset by turning heater off.

TEMPERATURE CONTROL

☀ **Electronic thermostat** Built-in electronic proportional-action thermostat ultraprecise to 1/5ºF (1/10ºC) for convection heating.

Timer 0-30 minute resetable mechanical timer for drying towels or quick heating.

Programmer Programmer-compatible, pilot wire only (240-V unit).

CONTROL PANEL

Location Located in the front of the unit with protective cover.

Switch On/Off switch, also serves as reset for overheat protection.

Dial **1** Thermostat control.

2 Timer dial with 3 mode-function selector.

Mode-function selector 3-mode-timer-function selector: Quick heating; Towel drying; Room-temperature drying.

Indicator light Heating indicator light.

CABINET

Steel construction with polyester/epoxy anti-rust powder coating.

Cabinet Splash-proof construction with rounded edges and built-in side wire covers.

Louvres Top forward-louvered air outlet that directs heat towards the entire room.
