Technical Specifications

Cat. No.	Description
Low Voltage Mounting Brackets	
CIMB-1 *	Mounting brackets that provides quick installation of low voltage class 2 communication outlets. Raised 1/2". Positioning tabs ensure straight installation.
WBF-1 *	Low voltage wall bracket.
Device Box Partitions	
CI1004-P	Steel partitions for 2", 2-1/2" and 3" deep outlet boxes.
CI1104-P†	Steel partitions for 2-1/2" deep gangable boxes. May be used with all 1104 and 3104 series of boxes.
CI2104-P	Steel partitions for 2" and 2-1/2" deep outlet boxes.

†NOTE: Install partition while ganging boxes.

In accordance with C.E.C. 2006 Edition, Rule 12-3030, a partition must be used when conductors in a multi-gang box are connected to different sources of voltage.

See page 65 for additional class 2 brackets
