PATENTED.

For wall thicknesses up to 1-1/4"—field modify bracket for thicknesses greater than 1-1/4".

Typical Installation of Low Voltage Fire Alarm Box using Red 4x4 Box

1 Determine position of device. Cut hole. Pull wire(s) through appropriate knockout (connector). Install box in opening. FSR404RD shown.

2 Install fire alarm (or other device) through the screw holes in the box.

Typical Installation of Device using Steel or Black Plastic 4x4 Box

1 Determine position of device. Cut hole. Pull wire(s) through appropriate knockout (connector). Install box in opening. FSR404S shown.

2 Install devices through the screw holes in the box.
