Please note that specified degree of protection is for operator mounted on panel. If other items are mounted in between, please make sure that they are correctly sealed.

IP66

## Technical Data

### Terminals

| Plus-minus Pozidriv No.2 s  | crew with DIN-washer.   |  |
|---|-------------------------|--|
| Connectable Area min. 1 x 0.5 mm² /AWG 20<br>max. 2 x 2.5 mm²/2 x AWG14 |                         |  |
| Tightening Torque   |                         |  |
| Operators Locking Nut   | Min. 2 Nm / Max. 2.3 Nm |  |
| Cable Terminals   | 0.9 Nm                  |  |

### Material

No ozone depleting substances in the products.

All front of panel plastic components are made of polycarbonate

| PC Polycarbonate            | High impact strength, good outdoor resistance.<br>Chemical resistance (see table below)   |
|-----------------------------|---|
| PSU Polysulphone            | Can withstand high temperatures, acids, basic solutions, alkaline compounds, oils, alcohols.  |
| PA Polyamide                | Can withstand high temperatures, aliphatic,<br>aromatic and chlorinated hydrocarbons,<br>esters, ketone-aldehydes, alcohols and basic<br>solutions.                                   |
| PBT                         | Can withstand high temperature, aliphatic and<br>aromatic hydrocarbons, acids, basic solutions,<br>alcohols, grease and oils  |
| Zinc                        | Good corrosion resistance in inland-, sea and industrial atmosphere.  |
| light-alloy                 | Good corrosion resistance in inland-, sea and industrial atmosphere.  |
| Chemical Resistance for Po  | olycarbonate  |
| Chemical Class              | Effects   |
| Acids                       | No significant effect under most typical condi-<br>tions of concentration and temperature   |
| Alcohols and Alkalis        | Generally compatible at low concentration and<br>room temperature. Higher concentrations and<br>elevated temperatures can result in etching<br>and attack evidenced by decomposition. |
| Aliphatic Hydrocarbons      | Generally compatible  |
| Amines                      | Surface crystallization and chemical attack.<br>Avoid.  |
| Aromatic Hydrocarbons       | Partial solvents and severe stress cracking agents (i.e., xylene, toulene). Avoid.  |
| Detergents and Cleaners     | Mild soap solutions are generally compatible.<br>Strong alkaline materials should be avoided.   |
| Esters                      | Cause severe crystallization. Partial solvents.<br>Avoid.   |
| Greases and Oils            | Pure petroleum Catalog numbers generally<br>compatible. Many additives used with them<br>are not.   |
| Halogenated<br>Hydrocarbons | Solvents. Avoid.  |
| Ketones                     | Cause severe crystallization and stress crack-<br>ing. Partial solvents. Avoid.   |
| Silicone Oil and Greases    | Generally compatible up to 85 °C.   |

# Approvals

The pushbuttons, selector switches and pilot lights are approved by:

- National approval agencies: UL, CSA and China Compulsory Product Certification
- For detail information please contact ABB

# Technical data

## Electrical data

### Standard contact blocks

Self cleaning silver contacts, NC contact with positive opening. At voltages and currents below 24 V and 5.6 mA we recommend our Micro Switch blocks.

| Rated Insulation Voltage                                     | 230 V   |                                   | Service Life for LED bulbs means number of service hours until the brightness has been reduced down 50 %. Service Life 50 000 h |  |
| Base   | BA 9s   | has been reduced down 50 %        |   |  |
| Permissible power, up to                                     | 2 W     | Color of white LED                | Color of white LED x=0.31 Y=0.32 means the position of color ir the ICI Chromaticity Diagram                                    |  |
| Transformer block  |         | Voltage Tolerance on LED<br>bulbs | -30 to +10 % voltage is acceptable without affecting the Service Life   |  |
| Suitable for Filament bulb 6 or 24 V AC, 1.2 W and LED 24 V. |         | Voltage Peaks on LED bulbs        | Voltage Peaks up to 1000 V Current Peaks up   |  |
| Rated Power  | 1.5 W   |                                   | to 500 mA during a few msec   |  |
| Rated Insulation Voltage acc. to IEC 70 °C (DT)              | Class E | Glowing light                     | All integrated LED bulbs have a function built in to cut leakage currents.  |  |
