

Drop-On Insulating Boots

Multi-Purpose Insulating Covers

Insulate your 600 V-rated padmount transformer secondary terminals

- Provides superior flexibility and durability, withstands higher temperatures than PVC covers and eliminates age cracking — increasing operator safety
- Assure a snug fit around terminals with compression terminal lugs or stud secondary bushings with set-screw type bars
- Fit in a broad range of applications and install quickly and easily
- RUS Accepted

Cat. No.	Length		Height	
	in.	mm	in.	mm
MPC 9	9	229	10	254
MPC 15	15	381		

Warning Tape

Place over new or existing lines to warn others of what lies below

- Minimizes dig-ins on U.D. lines
- Resists high or low pH conditions
