

## CADDY® ROD LOCK

The CADDY® ROD LOCK family of products allows contractors to prefabricate complex assemblies at ground level or offsite, and then easily lift and lock them into place by pushing the threaded rod supports into the CADDY ROD LOCK device. This ingenious technology works with threaded rod with burrs or imperfections, helping to eliminate clean-up time or the need to replace damaged threaded rod.

The most unique feature of the system is its breakthrough “push-to-install” design, which dramatically reduces the installation time of threaded rod support structures when compared to conventional fasteners. Simply speaking – CADDY ROD LOCK is revolutionizing how contractors support conduit, cable tray, lights, ductwork and pipe by helping to make installations faster, easier and more secure.

### BUILD

Assemble on the ground or off-site

### LIFT

Raise assembly to ceiling

### DONE

Level, tighten lock nut

## CADDY® ALL-IN-ONE Electrical Assemblies

# CADDY® ALL-IN-ONE Electrical Assemblies

## CADDY® ALL-IN-ONE Between-Stud Assemblies

### CADDY® ALL-IN-ONE Between-Stud Bracket

- Versatile bracket for mounting CADDY® ALL-IN-ONE box assemblies
- Provides excellent rigidity and reduces issues at trim out
- CADDY® ALL-IN-ONE box assemblies simply slide and lock in to place with provided screws
- Perfect for jobs when specifications require precise box location
- 24" stud spacing requires use of three mounting screws.
- Made in the USA

Material: Steel  
Finish: Pregalvanized

Part Number	Description	
A1B1624	CADDY ALL-IN-ONE Between-Stud Bracket	50 pc
A1B1624SP250	CADDY ALL-IN-ONE Between-Stud Bracket	250 pc

Use only with CADDY® ALL-IN-ONE box assemblies.
