### Compact Magnetic Tape Measures

★★★★★ 4.0 (1) [Write a review](#)

Our Compact Magnetic Tape Measures have up to 9' of standout and a magnet that easily adheres to EMT & steel studs for ease of use. Built with our nylon blade protection and a 5-point reinforced frame, these measuring tapes are wear and impact resistant. For increased productivity on the job site, the tape measures feature double sided printing with blue print scale allowing you to easily read and transfer measurements. The magnetic tip tape measures also feature a finger stop, which protects your finger and gives control during blade retraction.
