

18" Modular Track

APMT18TM4

The 18" Modular Track includes one outlet module and one blank module. Pair with other modular tracks to create a full system custom-designed for your kitchen.

features & benefits

- This track can support up to two puck or linear LED lights as well. Recommended configuration is one light for every 18" of track.
- The adorne system is a flexible and modular solution designed to eliminate kitchen clutter. Fully customizable, you can select from several types of modules and modify your system in minutes. Simply pop out an existing module and replace it with a new module at any time.
- Module options include standard 15A outlets, USB outlets, and a digital music system with BLUETOOTH wireless technology. You can also add cradles for mobile phones or tablets to save countertop space. These cradles fit onto the back edge of the track and do not occupy a module opening.
- Tamper-resistant outlets are designed with a patented shutter system, keeping children safe by preventing them from pushing small objects into the outlet.
- Each Under-Cabinet Lighting System must include a control box that is either hardwired to existing wiring or plugged into an outlet on the backsplash.
- Modular tracks simply plug together, enabling easy installation.
- Track provides 120V power via 15A outlet modules and 20A pass-through.
- Modular track features a sleek titanium finish.
