

# T&B® Cable Tray Aluminum Covers – Straight Cover Number Selection

## Tray Covers

- Tray covers are available for all classes of tray. They should be installed where falling objects may damage cables or where vertical tray run is accessible by pedestrian or vehicular traffic.

*Cover mounting hardware must be ordered separately.*

## Solid Covers

- These covers provide maximum mechanical protection for cables with limited heat build up. Solid covers are available with or without flange.

Flanged covers have ½" flange.

*Cover mounting hardware must be ordered separately.*

## Ventilated Flanged Covers

- This design offers excellent mechanical protection while allowing heat produced by cables to dissipate.

*Cover mounting hardware must be ordered separately.*

## Peaked Flanged Covers

- Peaked covers offer mechanical protection reduce pooling of liquids on the cover and accumulation of snow or ice.

Peaked covers have 15° rise.

Covers greater than 12" wide available in 72" and 3m lengths only.

**Fittings covers are not available in Peaked Flanged.**

*Cover mounting hardware must be ordered separately.*

H

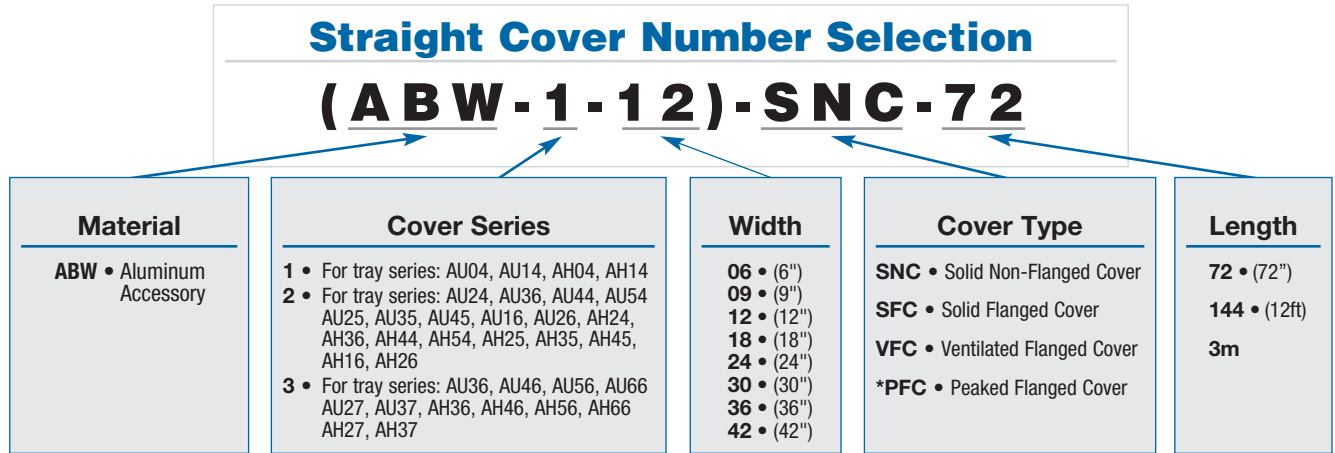

T&B® Cable Tray

T&B aluminum cable tray is composed of two distinct systems H-Style and U-Style. These systems are not interchangeable. Pick one system and stay with it through your project / installation. (Don't mix H and U style components on the same job.)
