FLUORESCENT LIGHT FIXTURE

1 & 2 lamps

Suitable for damp & wet locations

DESCRIPTION

The VP4 series of IP65 rated linear fluorescent fixtures are sealed against water and moisture making them ideal for wet and damp locations. Uniform gasketing is inserted around the entire housing, ensuring a complete seal. The polycarbonate housing and lens are corrosion resistant and will not rot or rust. A high performance, metal reflector provides superior light output and helps dissipate ballast heat.
