

Reel Easy.

See the Difference You Can Feel

Unique Case Design

Fatigue-reducing case designed to encourage holding the case closer to your body so you use less energy while fishing

Case designed to fit all users and fishing environments

Use Your Case, Your Way

Versatile, no-handle case design provides countless positions so you can hold the case how it's most comfortable for you

Fish faster when you hold the case between your legs or set it on the ground to free up both hands

Secondary Exit

Set your case on the ground to free up both hands while feeding into conduit or pulling

Primary Exit

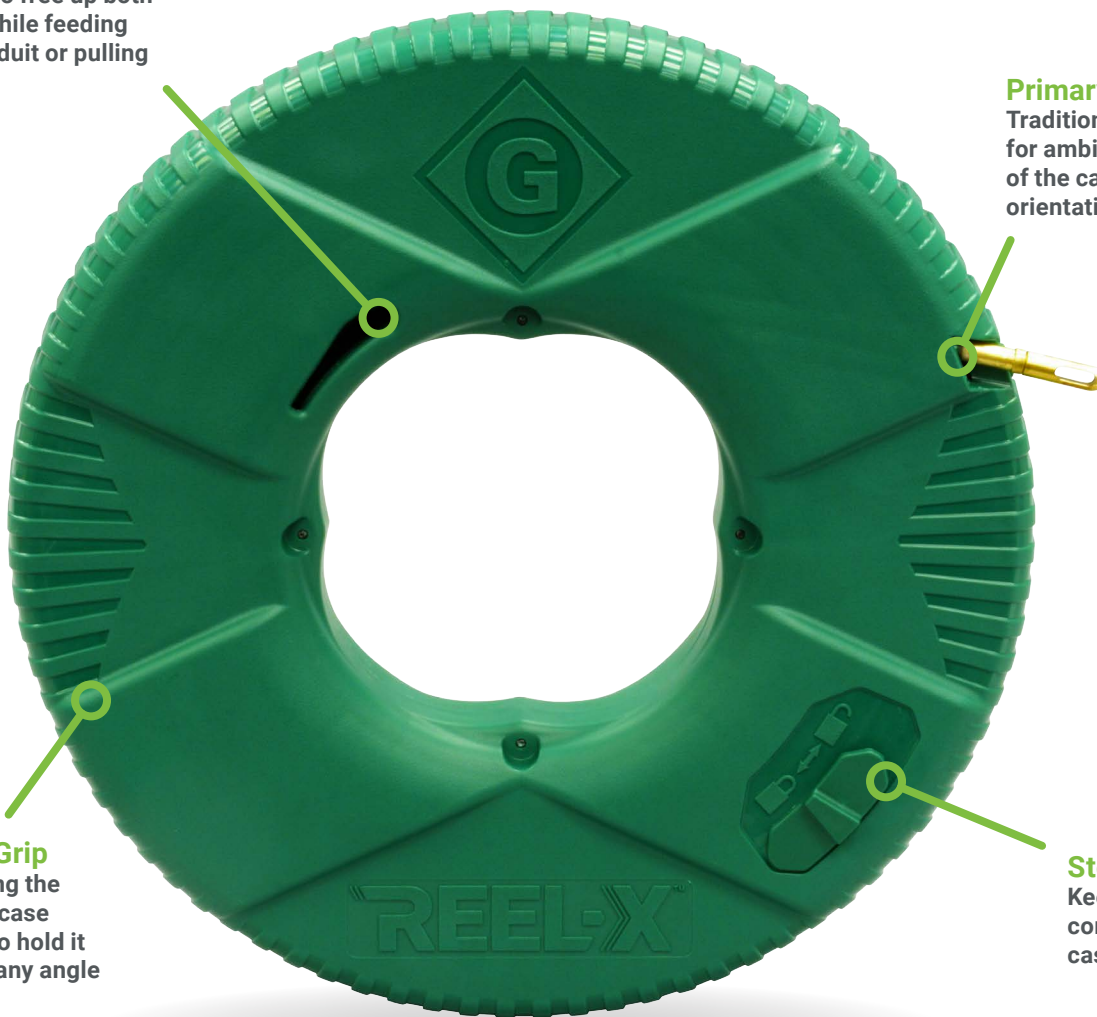

Traditional exit allows for ambidextrous use of the case at any orientation or angle

Textured Grip

Ribbing along the edge of the case allows you to hold it securely at any angle

Storage Lock

Keep the fish tape contained within the case during transport

Ergonomic Design Delivers Maximum Comfort

Reduce Fatigue
Low feed & pull
forces

Decrease Strain
Case promotes neutral
arm and wrist postures

Minimize Discomfort
Designed to encourage
holding the case closer
to your center of mass

Replacement Reel Cartridges

Replacement reel cartridges make replacing your fish tape quick and easy. Just remove 4 screws to open the case, remove your old reel and insert your new reel cartridge.

Poly line

Greenlee poly line comes ready-to-use, with a pre-punched hole in lid and resealable cap. Use with our fish tapes or power fishing systems when you install cable. Available in lengths from 500' to 6,500' with 210 lb to 500 lb breaking strength.

Pulling Tape

Use Greenlee's durable and stretch-resistant tape to easily install wire in conduit and PVC. The tape is lubricated to reduce burn-through in inner duct and has easy-to-read footage markings for quick and accurate measurements. It is available in various tensile strengths for use in any application.

Measuring Tape

Fish and measure conduit runs in one operation. Greenlee measuring tape has permanently printed measurements every foot from zero to 3000' (914 m) and is made of strong, waterproof polyester.
