

# THE TOP HAT

 PART# TC1400  
 \*PACKAGED IN 50 & 5 PACKS

As a simple box cover, the Top Hat is used instead of a blank cover with several important advantages. It allows installers to leave wires that enter the junction boxes extending straight. With the depth of the Top Hat there is no need to coil wires and stuff them into the smaller parts of the junction box. This will save time during installation and more importantly during troubleshooting. Additionally, this high volume cover makes it easier to access the contents of any junction box.

## FEATURES

- ULC Approved
- Adds 35.8 cubic inches to the existing junction box
- Plenum Rated
- Patent Pending

BEFORE

AFTER

# 6.5 INCH PLATE

## FEATURES:

- Installs in seconds with rare earth magnets - snaps in place to metal clips (included)
- White decorative plate covers and 5-1/2" square hole or electrical box
- Can also be used to cover a round hole with up to a 5-1/2" diameter
- Visually appealing white decorative plate - no need to paint metal covers

Part# D612

SC500 - Aircraft Seismic Cable 500'  
 SC1000 - Aircraft Seismic Cable 1000'  
 SCC116 - Aircraft Seismic Cable Clamps

# AIRCRAFT CABLE & WIRE CRIMPS

- AVAILABLE IN 500 AND 1,000 FEET.
- NO NEED TO GO ANYWHERE ELSE - BUY IT FROM US!

# BOLT STAR®

## POLE POSITIONING TOOL

### INTRODUCING BOLT STAR®

An innovative, multi-function reusable bolt template engineered to hold four anchor bolts, rebar cage and conduits securely in place during the pour of a concrete pole base. The result of years of design refinement and testing, BOLT STAR radically improves the productivity of crews in the construction of light pole bases and round column forms. Available for 180 and 240 tube sizes, the tool virtually eliminates the drawbacks of wood templates.

SAVES LABOR - REUSABLE - REDUCES RISK

- Part# 67218 - Small Size 18" - Green
- Part# 67224 - Large Size 24" - Orange
- Part# 67230 - Extra Large Size - Yellow
- Part# 67234 - Extension Set of 4 Pcs. - Black

# BOLT TEMPLATE

The Bolt Template helps you easily layout bolts to be used in concrete for future installation of poles or beams. The template is multi-functional and has an easy guide for centering bolts.

- Has a whopping 41 templates!
- Quick, easy, and reusable
- Weather resistant ABS plastic
- Sets poles and beams 8" - 24"

Part# 67441

# DRYCONN®

## WATERPROOF CONNECTORS

FILLED CONNECTORS FOR OUTDOOR USE

### FILLED CONNECTORS FOR DIRECT BURY USE
