Wallplate material information

Thermoplastic nylon or polycarbonate wallplates

Design features

- Rugged construction reduces installation cost due to less plate breakage and resists bowing to provide a smooth, flat installation

- Exclusive timesaving Screw-catch feature holds mounting screws captive and simplifies installation

- High gloss finish is soil resistant

- Polycarbonate wallplates are virtually unbreakable with high structural rigidity, long-term form retention, plus superior impact and abrasion resistance

- Nylon wallplates have a flush-fitting, warp resistant design

- Matching mounting screws provide

Testing & code compliance

- cULus listed to UL514C, file no. E33216, certified to CSA C22.2, no. 42.1

Material characteristics

- Flammability: meets UL94 requirements; 5V rated

- Temperature rating: -40°C to 70°C (-40°F to 158°F)

Thermoset wallplates

Design features

- Extensive line of non-flammable thermoset plates provides flush-fitting, warp resistant performance

Testing & code compliance

- cULus listed to UL514C, file no. E33216, certified to CSA C22.2, no. 42.1

Material characteristics

- Flammability: Meets UL94 requirements; 5V rated

- Temperature rating: -40°C to 65°C (-40°F to 149°F)

302/304 Stainless steel wallplates

Design features

- Superior non-corrosive and non-magnetic properties for applications needing protection from those elements

- Stainless steel alloy contains 18% chromium and 8% nickel for corrosion resistance

- Stamped from 0.032" (0.81mm) thick material

- Horizontally satin-brushed surface finish resists finger prints

- All plates are coated with clear, removable PVC to safeguard the surface during handling and installation

- Matching stainless steel mounting screws provided

Testing & code compliance

- Listed to UL514D, file no. E92122, certified to CSA C22.2, no.42.1

Material characteristics

- Temperature rating: -40°C to 70°C (-40°F to 158°F)

Brass wallplates

Design features

- Line of handsomely crafted, elegant solid brass designs in 11 popular NEMA standard size configurations

- Strong, corrosion resistant and coated with transparent lacquer to resist premature oxidation

- Horizontally satin-brushed surface finish resists fingerprints

- Matching brass-plated steel screws resist damage during installation

- All plates are coated with clear, removable PVC to safeguard the surface during handling and installation

- Solid brass material is a 70/30 alloy (#26C), .040" (1.02mm) thick
Testing & code compliance

- Listed to UL514D, file no. E92003

Material characteristics

- Temperature rating: -40°C to 70°C (-40°F to 158°F)
