Fire Barrier Foams

3M™ Fire Block Foam FB-Foam

A fireblock and draftstop used to help seal, fill, insulate and bond for non-rated residential and commercial construction. This foam-in-place fireblock is heat-resistant up to 240°F (115°C) and meets ASTM E 84 (mod) Class 1 for smoke spread and flame development. This fireblock foam is ready-to-use and tack-free in approximately 5 minutes.

3M™ Fire Barrier Rated Foam, FIP 1-Step

A two-part urethane, smoke, sound and firestopping foam designed to expand up to 5 times in volume after dispensing. This intumescent foam can be used to fill the annular space created by pipes and cables penetrating through fire-rated construction. It's an alternative to mineral wool, bricks, pillows and runny, ineffective foams and is UL listed.
