Prefab Assemblies & Wall Box Mounting Components

BRANCH CIRCUIT WIRING MADE EZE-ER THAN EVER

designed to be better.™

L7 legrand®

Reduce time and labor with EZE-Fab

EZE-ER ON THE JOB, EZE-ER ON YOU.

You face big challenges every single day. With a rapidly changing group of workers and ever-increasing demands from workloads, budgets, changing construction processes, clients and codes, it's hard to find time to get everything done. Reduce both time and labor with our EZE-Fab line of prefabricated branch circuit sub-assemblies. They're designed to work with our time-saving PlugTail® wiring devices that install in less than one minute. Speed through rough-in and trim-out with everything you need.

Solve many of your challenges with just one solution

CHALLENGE	SOLUTION WITH EZE-FAB + PLUGTAIL
Labor shortage	Eliminate repetitive assembly work
Accelerated project timelines	Quickest overall installation when combined with PlugTail • Up to 50% in time savings • PlugTail installs 3-5x faster than conventional devices
Safety concerns	Greatly reduce repetitive motions and screwdriver slips
Excessive packaging waste	Parts come assembled with reduced packaging

IDEAL FOR MANY COMMERCIAL APPLICATIONS

· Office
· Mixed Use
· Healthcare
· Hospitality
· Education

EZE-Fab prefabricated floor assembly installed in commercial office environment

Cut Installation Time in Half

COMPARE EZE-FAB SIDE-BY-SIDE TO A TRADITIONAL INSTALLATION

TRADITIONAL   EZE-FAB

0 MINUTES   **0 MINUTES**

No measuring required. Prefab assemblies are always to spec. Simply add a screw to keep it in position.

2 MINUTES   **1 MINUTE**

Traditional methods are limited to available stud positions, while prefab assemblies can be mounted anywhere on the base plate.

3 MINUTES   **2 MINUTES**

Everything's included. Prefab assemblies come with a built-in wire manager, pre-installed plaster rings and a far side wall support. No extra hardware needed.

6 MINUTES   **4 MINUTES**

Assembly on the job site is difficult and often done on the floor in awkward positions.

12 MINUTES   **6 MINUTES**

In just 6 minutes, the EZE-Fab rough-in is finished. A traditional rough-in takes twice as long at 12 minutes. With EZE-Fab, **slash your installation time in half.**
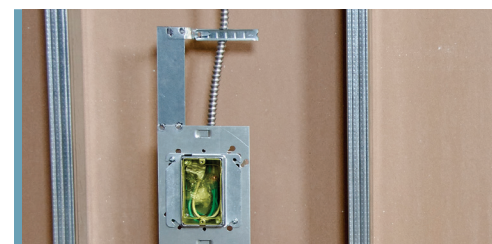

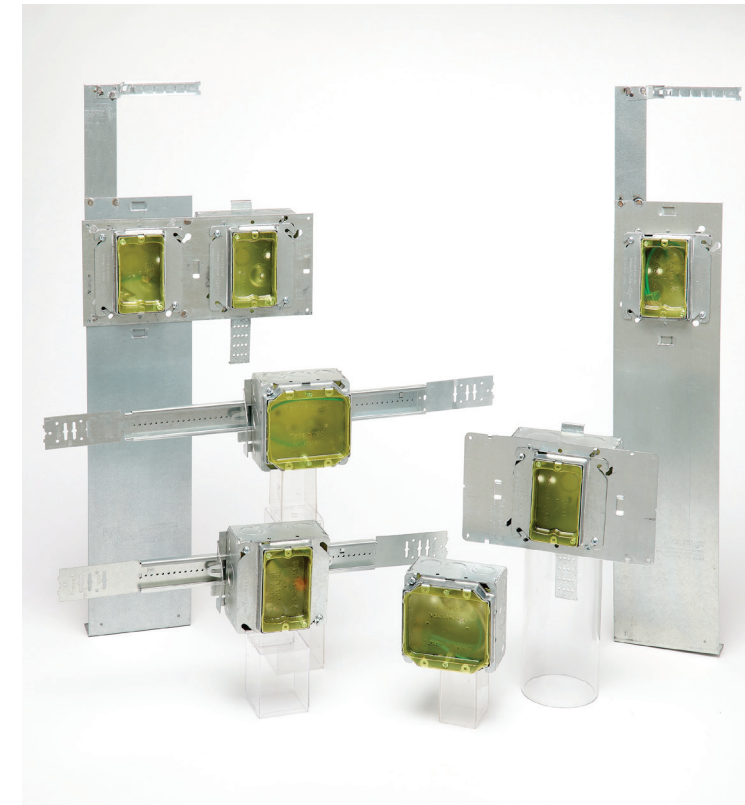

EZE-er Rough-In

EZE-FAB PREFAB ASSEMBLIES

Available in preconfigured combinations that satisfy the majority of commercial rough-ins, **these assemblies reduce the time you waste on repetitive work in the prefab shop or on the job site.** Arriving pre-assembled in the most commonly used configurations and optionally prewired with our universal switch or receptacle connectors, EZE-Fab prefab assemblies give you a faster, easier and more consistent install on any project.

Simply choose the type of bracket you need, then select from our options for the opening(s).
- Choose the bracket you need
- Select your opening and ring
- Place your Purchase Order

FEATURES & BENEFITS
- Box is set to the proper height
- Built-in cable support

F118
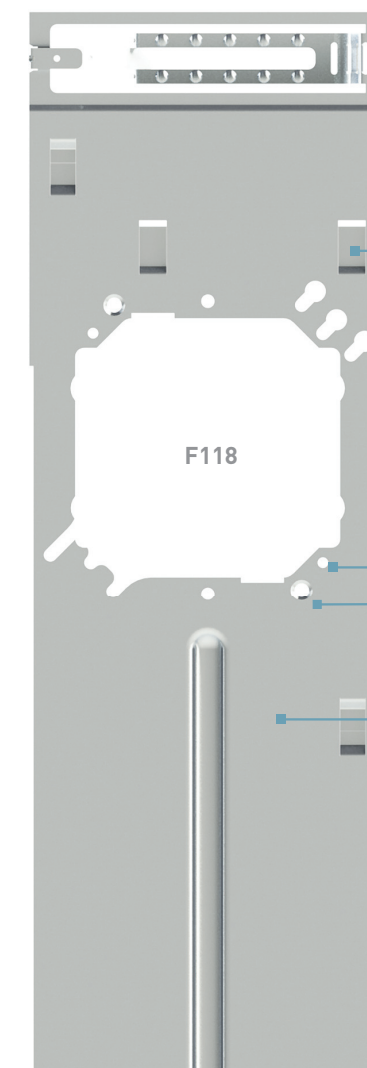

Integrated cable support

Support arms attach to the back of the bracket using the two slots provided

Keyhole openings allow 4", 4-11/16" and 5" x 2-1/8" boxes to remain attached

Attachment holes for 4" rings allow 4-11/16" x 2-1/8" boxes to be mounted independently

Attachment holes for 4-11/16" x 2-1/8" boxes allow 4" rings to be mounted independently

Multiple box heights are available from 12" to 24"

*See page 10 for complete line of mounting components*

EZE-Fab

Spend less time in your prefab shop or on the job site with our line of prefab assemblies. Available in the most popular configurations and ready to ship. **All assemblies are sold in packs of 10. *Stock items are notated. Other assemblies 2 week lead time.**

PASS & SEYMOUR®
PLUGTAIL ELECTRICAL WIRING DEVICES

PlugTail wiring devices redefine simplicity for electrical systems. EZE-Fab prefab assemblies come pre-installed with universal PlugTail switch or receptacle connectors - so there's no need to determine the devices upfront or wrestle with last minute changes. You can breeze through rough-in with a standardized assembly and select from an incredibly thorough line of electrical devices later. Once you pick them, all you need to do is click in the device and mount it to the box. Say goodbye to preparing, stripping, looping and taping. And as buildings and requirements change, it's incredibly easy to swap devices in and out to make the upgrades you need.

FEATURES & BENEFITS

- PlugTail installs up to 5x faster than conventional devices - no screwing, stripping or taping
- Adjustable mud rings allow you to level the device perfectly with a few turns of a screwdriver
- Device change outs are easy in the future
- Reduces repetitive motions like screwdriver turns and prevents screwdriver slips
- Circuits can be tested at rough-in or trim-out with PlugTail tester
- PlugTail line includes straight blade receptacles, switches, sensors, timers, GFCIs, USB charging options and more
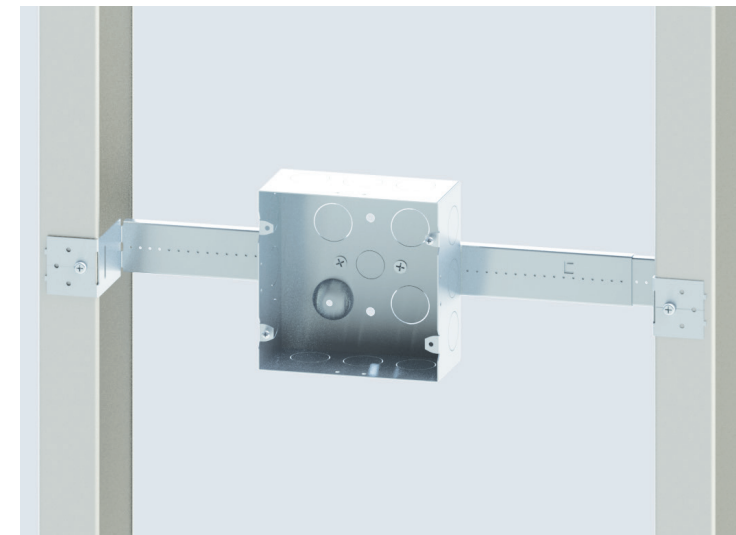

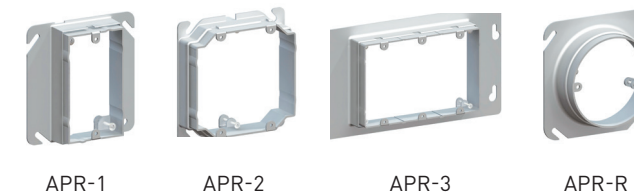

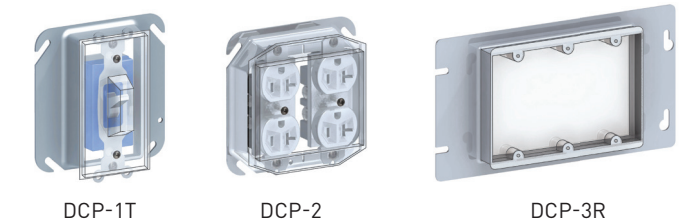

EZE-er Projects

WALL BOX MOUNTING COMPONENTS

Whether you simply need extra stock on hand or you're looking for pieces to do your own assemblies in a prefab shop, our collection of Cablofil® wall box mounting components has you covered. Choose from a wide variety of box brackets, mounting plates, rings and plastic device covers to supplement your project needs and construct your own assemblies.
