Operation & Cam

Operation	Operator Position			Type Of Contact	Contact Mounting Position
	Left ↖	Center ↑	Right ↗		
Spring return from left (12)	0	X		NC	Left or Right
	X	0		NO	Left or Right
Maintained (21)	X		0	NC	Left or Right
	0		X	NO	Left or Right
Spring return from right (63)		X	0	NC	Left or Right
		0	X	NO	Left or Right

Note: When using double contact block 91, NC contact is that closest to and mounted on the left side of the operator. When using double contact block 92, NC contact is that closest to the operator on each side.

Left **Right**

Tab

Always view left-right facing operator

Tip for Quick Service: For small quantity orders of 2-position selector switches with contact configurations other than 91 or 92, order operator and contact blocks separately. Cam 12 is normally stocked with black knob; cam 21 is normally stocked with black knob or chrome lever.
