

E 90 J fuse holders

Specifically designed to be equipped with class J fuses

The E 90 J range has been designed to comply with North American market regulations. The E 90 J fuse holders are the ideal solution for industrial installations, motors and transformer protection, heating systems and control circuits.

Features:

- For use with Class J fuses only
- 1, 2, and 3 pole versions available
- Rated current 30A and 60A
- Rates voltage 600V AC/DC according to UL 4248-8
- All versions are available with optical blown fuse indicator

In accordance with the reference standard UL 4248-8, they come in voltage and current ratings up to 600 V and 30/60A. The breaking capacity reaches 200kA. They are available in 1P, 2P and 3P versions. The versions with blown fuse indicator light provide a visual signal of the fuse break condition. They can be padlocked open and sealed closed to ensure operator safety during maintenance operations.
