

ITEM#LATHAXE10-F

**10oz Titanium Lather’s Hatchet with 13.5” Fiberglass Handle**

The Stiletto LathAxe10F is a 10 oz. Titanium Milled Face Hammer with a 13 in. Curved Poly/FG Handle. The Hammer has a Lathe Axe design and Stiletto's signature Magnetic Nail Starter. The LathAxe10F has the comparable striking force of 24 oz. Steel hammer and is recommended for residential framing and remodeling. Stiletto Tool Company has been synonymous with high quality hand tools dating back to 1849. With its long history and strong reputation, the brand has evolved into the modern day standard for innovative, lightweight, ergonomic, productive, and professional tools. We set the standard with our line of premium titanium hand tools that span numerous trades such as framing, remodeling, finish work, siding, demolition, concrete, and drywall. Titanium is 45% lighter weight while providing the same striking force and strength as steel. Titanium tools also produce less recoil shock which helps reduce carpal tunnel syndrome. The combination of these features means less down time, more productivity, and most importantly less pain while working.
