

ITEM# FH10C-F

10oz Titanium Smooth Face Hammer with 14.5” Hybrid Fiberglass Handle

The Stiletto FH10CF is a 10 oz. Titanium Smooth Face Hammer with a 14.5 in. Curved Poly/FG Handle. The Hammer has a Finish Curved design and Stiletto's signature Magnetic Nail Starter. The FH10CF has the comparable striking force of 24 oz. Steel hammer and is recommended for residential framing and remodeling. Stiletto Tool Company has been synonymous with high quality hand tools dating back to 1849. With its long history and strong reputation, the brand has evolved into the modern day standard for innovative, lightweight, ergonomic, productive, and professional tools. We set the standard with our line of premium titanium hand tools that span numerous trades such as framing, remodeling, finish work, siding, demolition, concrete, and drywall. Titanium is 45% lighter weight while providing the same striking force and strength as steel. Titanium tools also produce less recoil shock which helps reduce carpal tunnel syndrome. The combination of these features means less down time, more productivity, and most importantly less pain while working.
