

ITEM# TI16MC-F

**16oz Titanium Milled Face 18” Hybrid Fiberglass Handle Hammer**

This STILETTO® 16-Oz Titanium Milled Face / 18-Inch Hybrid Fiberglass Handle Hammer delivers powerful blows with maximum traction. Its long handle allows for extra reach and helps you create a long swing, so you get tons of power with every strike. A thumb-shaped divot helps you maintain your grip, so this Stiletto titanium hammer doesn't slide loose while you work. Its milled face includes a built-in magnet that holds nails straight and prevents accidental finger strikes while you set your positions. This titanium head withstands heavy blows without chipping. The tool's ergonomic handle keeps your hands comfortable and the straight-claw hammer doubles as a prying tool. You can use the claw to remove fasteners or as a way to loosen materials for demolition and repair.

**INCLUDES:**
