

24” Heavy-Duty Aluminum Straight Edge

The Empire® Level 24-Inch Heavy-Duty Aluminum Straight Edge is ideal for use with many different tasks and projects. It features easy to read scale graduations that are divided into eighths and sixteenths of an inch for greater precision. The Empire Level durable straight edge has a heavy-duty aluminum frame and edge that measures 2 inches to help ensure a longer lifespan. It is built using solid brass for a higher level of strength and durability. The Empire Level 2-foot straight edge has a lacquered finish to help protect it from corrosion and wear and tear. It is ideal for use by professionals, contractors and homeowners to obtain accurate readings on surfaces that measure up to two feet long.
