

FIBERTEL® HDPE Innerduct

CSA approved HDPE

FiberTel® high-density polyethylene (HDPE) Innerduct is certified to CSA C22.2 No. 327 HDPE conduit and available in various colours and sizes. FiberTel combines the features of flexibility, durability, lightweight and ease of installation for a superior product. Mechanically and chemically resistant to a host of environmental conditions, FiberTel is resistant to decomposition, oxidation, and hostile elements that cause damage to other materials. Used for communication, data, cable television, power and general-purpose ducting, FiberTel is ideal for both short runs and cross-country distances.

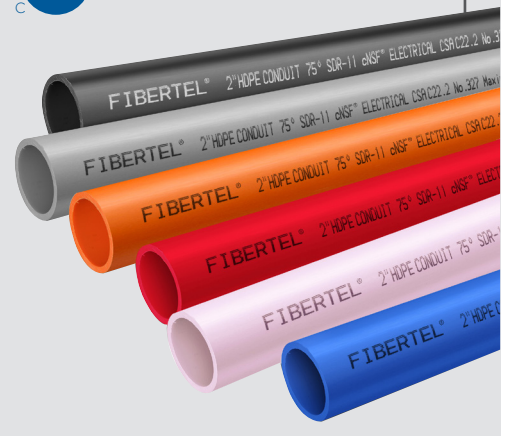

Regionally manufactured in Edmonton, AB.

Features and Benefits:

- Durable with a high tensile strength
- Unique formula protects pipe from harmful effects of UV rays
- FiberTel is flexible allowing for easy bending during installation
- Smooth interior surface offers reduced friction for easier cable pull

Standards:

 Electrical CSA C22.2 No. 327
