

ENERGY SAVINGS • COST EFFECTIVE • EFFICIENT

Ideally suited for circulating air in Industrial and Commercial Applications.
Canarm's "DC" Fans help save energy year round.

In winter, ceiling fans are used to destratify hot air otherwise trapped at ceiling level (Hot air is moved back to floor level where it keeps employees warm and comfortable). This can result in savings of up to 30% on heating costs.

In summer, Ceiling Fans run at higher speeds creating an evaporative cooling effect, keeping employees cool, and productivity higher.

IMPORTANT NOTICE:

In order to operate, DC industrial fans **MUST** be installed with our RREM-DCQ014-W wall control.

DC fans not for use with MC controls.
