DSL Filter Board

APPLICATION

The DSL Filter Board, designed to fit into any Leviton Structured Media™ enclosure, separates the DSL portion of an incoming telephone signal prior to distribution throughout the home, eliminating the need for a micro-filter system at each wallplate. Available as an expansion for Leviton's Pre-Configured Structured Cabling Panels, or as a stand-alone module on an ABS plastic bracket.

STANDARDS COMPLIANCE

Meets or exceeds all applicable standards: UL recognized components.

PHYSICAL SPECIFICATIONS

Dimensions: DSL Filter Board:
              5.750″H x 1.750″W x 0.702″D

              Bracket:
              6.561″H x 2.132″W x 2.202″D

Material: DSL Filter Board:
            Printed Circuit Board

            Bracket:
            ABS plastic, white

DESIGN CONSIDERATIONS

• Filters DSL from the telephone line before the line is distributed throughout the home, acting as a robust whole house filter.
• Fits easily into any Leviton Structured Media enclosure.
• Quick-Snap feature for easy expansion board installation.
• Available as a stand-alone module on an ABS plastic bracket.
• Dedicated jack for modem.
• Designed to filter any telephone line (line 1, 2, 3 or 4) coming into the home.
