## Midwest Electric Transfer Switches

Midwest Electric heavy duty manual transfer switches help provide reliable transfer of power from the normal utility-supplied source to a standby generator, enabling the user to readily maintain power during utility outages. Use them anywhere an extended outage would result in severe loss, damage or inconvenience.

Designed to be operational and switchable at full rated capacity, Midwest Electric transfer switches are available in single- and three-phase configurations at ratings through 600V. The double-throw mechanism helps prevent dangerous backfeeding of generator power into the utility system.

## Electrical ratings

- 100-400 amperes
- 240 V and 600V models
- 10kAIC

## Rugged durability

- Break before make switch mechanism*
- All-in-one construction with factory-assured terminations
- Bus bars interconnect main and standby switches*
- Knife blade switch contacts help provide long life
- NEMA 3R weatherproof enclosure
- G90 galvanized steel construction for superior corrosion protection
- Durable polyester powder coat finish resists chipping and fading
- High quality, user-tested components designed for long life

## User protection

- Interlock allows door opening only when switch is in the OFF position*
- Padlock provision in all three ON-OFF-ON transfer positions
- Padlock provision on door
- Clear line shield for visual verification of blade position while helping guard against contact with live parts

## Installation ease

- Optional neutral kits available for both 240 V and 600 V models
- Broad range of concentric knockouts accommodate varying wiring needs
- All terminals accept copper or aluminum wire for installation flexibility

## Transfer Switch Selection

Two Pole, 100-400 Amps, 240V

| Fig. |  | Model Number | Switch Ratings |  | Optional <br> Neutral Kit $^{1}$ |

|  | GS3464B01UL | 400 | 400 |  | NEU407 |

${ }^{1}$ Order Neutral Kit for 4-wire systems (208Y/120, 480Y/277, 600Y/347).
${ }^{2}$ Available in light duty construction (aluminum enclosure) - order model number GS3161G.
${ }^{3}$ Available in light duty construction (aluminum enclosure) - order model number GS3262G.

All three pole models are suitable for use in single phase, 3-wire, switched neutral applications no neutral required.
