

## PASS & SEYMOUR®

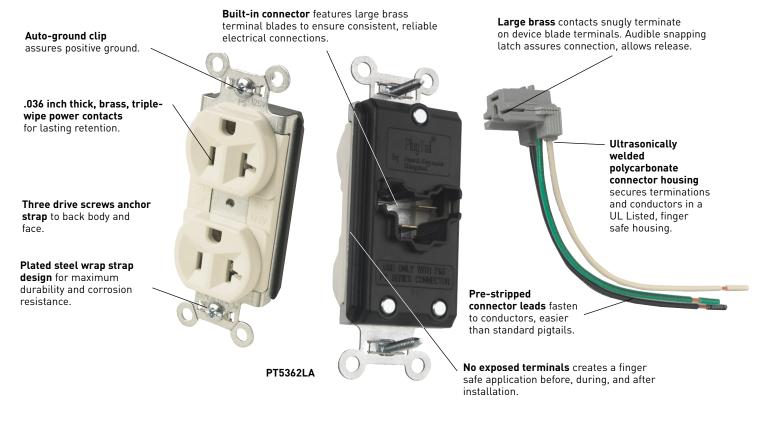

Specification Grade PlugTail<sup>®</sup> Receptacles 15 & 20A, 125V

# PlugTail<sup>®</sup> — The fastest, most consistent and reliable wiring devices – ever.

PT5262, PT5362

Factory-terminated devices and connectors mean that device installation is the same regardless of skill level of the installer. The UL-Listed connectors are keyed to ensure proper wiring installation into each receptacle. The connector simply snaps into the back of the device — no fussing with wires, stripping, or tightening screws. PlugTail devices are finger safe with no exposed terminals, so taping is not required. Now device installation is a snap!
