

SIEMENS

Ingenuity for life

60 Circuit Loadcentres

Siemens 60 circuit 200A 120/240V Service Entrance loadcentre has all the features for faster installation and dependable quality.

Features

- CSA certified
- The patented INSTA-WIRE™ neutral/ground system allows for faster installation because the screws arrive backed out, ready for insertion of wire
- Combination of Robertson/slot screws on the trim, neutrals, grounds and branch breakers
- Fully distributed split-neutral design provides fast, safe and easy installation – easier to terminate grounds, easier to trace circuits and easier to access neutrals
- Exclusive one-piece non-conductive, extruded polymer back pan allowing for replacement of the split-neutral against the back wall and in close to the breakers for maximum free gutter space
- Available with or without a door
- Available in white or grey colour

Product Specifications – Technical Data

- Main 200A, 120/240V AC breaker factory-installed
- 22 kAIC interrupting rating
- 60 full modules or 120 half modules branch circuits
- Type 1 enclosure
- Tin-plated aluminium bus
- CSA certified
- Important: Consult local applicable electrical codes before installation
