

On-Q
5-in Mounting Plate with 1.5-in Elevation
Part No. AC1050

The On-Q mounting plate, AC1050, is constructed of WiFi transparent ABS plastic and is designed to securely mount a variety of 3rd party devices into the On-Q plastic structured wiring enclosures. The mounting plate can be mounted vertically or horizontally and include (4) plungers and grommets along with velcro strapping for devices to be safely secured inside the enclosure without compromising wireless performance. Universal mounting pattern inspired by Middle Atlantic Products Lever Lock Series provides more strapping options to accommodate most small devices and facilitate cable management.

Features & Benefits

The 5-inch Mounting Plate has 1.5-inch of elevation and can be mounted vertically or horizontally inside plastic enclosures or media boxes

Elevated design allows for dual-layer and unobstructed mounting of antenna devices

Includes (4) plungers and grommets and 3 feet of hook and loop strapping

Compatible with On-Q plastic enclosures
