

radiant Collection  
radiant® Smart Tru-Universal Dimmer, Wi-Fi, Light Almond  
Part No. WWRL50LACCV2

Take comfort in the convenience of controlling your lights from any smart device to set the exact lighting you need- from anywhere.

The radiant Collection now offers smart switches and outlets with the ability to control lights and set scenes and schedules from any smart device - or just ask Alexa or Google to turn lights on for you. Combining classic design and advanced functionality with simple connection among existing smart home solutions, smart lighting sets the exact lighting you want - when and where you need it.

The radiant® Collection is a step up from standard with simple, classic options in wiring devices, home automation controls and screwless wall plates that complement today's homes.

## Features & Benefits

Control lights from smart phones and tablets with the Smart Lights app. Even schedule lights to turn on/off automatically, create groups or set scenes.

Works with a home's existing secure Wi-Fi network (WPA2). Also includes out-of-the-box connectivity with other smart devices through OCF certification.

Installs easily in place of an existing switch or dimmer, neutral wire required. Operates any 120V dimmable light or fixture.

Just ask Amazon Alexa or Google Assistant to turn on the lights.

Know your home is secure, even when you're away.

Set the exact lighting level you need.

Locator light illuminates when switch is off, emitting a soft glow to help you find it in the dark.

More color options available to fit any style.

Screwless Wall Plate included. Coordinate with other designer switches and outlets available from the radiant® Collection for a cohesive, sophisticated look.
