## Description

30A 125/250V/AC, 3-Pole, 4-Wire grounding  
 50A 125/250V/AC, 3-Pole, 4-Wire grounding  
 NEMA 14-30, 14-50

### Design features for receptacles

- For use in homes with 4-wire connection points
- Heavy gauge galvanized steel mounting straps for corrosion resistance
- Terminal pressure plates for enhanced wire retention strength
- Surface receptacles have exclusive lay-in terminals that accept up to #4 AWG wire

### Design features for plugs & connectors

- Universal plugs include blades for both 30A & 50A configurations
- Terminals have pressure plates to protect wires
- Auto grip plugs and connectors utilize an internal clamp design to secure cord during assembly
- Auto grip devices are built with a rugged high-strength thermoplastic
- Neoprene gasket seals around cord for added terminal protection on Auto grip devices
- Angled Auto grip plugs have 4 possible positions for maximum convenience

## Applications

Today's homes feature sophisticated appliances requiring power devices that are more durable and reliable than ever, and our power devices are specifically designed to meet those challenges. Eaton's NEMA 14-30 and 14-50 power devices are built for a 4-wire grounding connection system which is commonly found in homes built after 1996. Our full offering of flush mount receptacles, surface mount receptacles and plugs are perfect for retrofit and renovations to common dryer and range circuits.
