KICK WEDGE

The Kick Wedge is a tool designed to help level out your 90 degree bend before adding your kick or second 90 to your conduit. Unlevel bending surfaces or where you grab your conduit with the bender shoe will raise your 90 off the ground differently every time, so having a tiered platform to cycle through will help you level your 90 no matter the circumstance. The kick wedge tiers will accept 1/2", 3/4", 1", and even 1 1/4" conduit sizes.
