

SmartTWO™ Series

Set your city up for the EV revolution

Designed for public and curbside use, and sturdy enough to resist most vandalism and extreme weather, rely on SmartTWO™ charging stations to usher your city to a greener future.

The SmartTWO™ charger is a user-friendly connected charging station that allows comprehensive and easy access to data via centralized information management software and can also generate revenue through usage fees.

Robust and Reliable

- Withstands the rigors of public charging with rugged Type 3R aluminum enclosure
- Patented door locking mechanism to protect connector

Cost-effective Installation and Expansion

- Maximize limited real estate with compact footprint and save on installation costs with integrated electrical cabinet (optional)
- Revenue generating options available

Effortless for Drivers

- Unique cable management system makes handling the cable effortless.
- Automatic retraction eliminates tripping hazards (SmartTWO-BSR™ version only).
- Delivers real-time updates and notifications to drivers.

For Cities

Interested in reducing their GHG emission by offering downtown destination charging.

For Commercial Parking Lots

For public location owners interested in offering their customer base a great charging experience.

Workplace

For employers that want to provide their employees with a monitored charging service in a vandal-prone area.
