Astronomical Time Switch (version 2)

**Catalog Number • Numéro de Catalogue • Número de Catálogo: RT-200**

Country of Origin: Made in China • Pays d'origine: Fabriqué en Chine • País de origen: Hecho en China

## SPECIFICATIONS

Voltage .................................................... 120/277VAC, 50/60Hz
Load (Single Pole)................ 0-800W tungsten or ballast, 1/6HP
Environment ...................................................... Indoor Use Only
      Operating Temperature ............. 32˚ to 122˚ F (0˚ to 50˚ C)
      Humidity .................................... 95% RH, non-condensing
Countdown Options........... none, 5 min, 10 min, 15 min, 30 min,
      .............................1 hr, 2 hr (default), 3hr, 4 hr, 5 hr, or 6hr
Tools Needed
      Insulated Screwdriver
      Wire Strippers

## DESCRIPTION AND OPERATION

The RT-200 is an astronomic time clock and timer switch that controls the connected light or fan either manually or through user programmed times.

Upon installation the user enters the correct longitude/latitude coordinates, date, and local time. This ensures that once the schedules are programmed, the load turns ON/OFF at the correct local times. The button switch is a customizable manual override feature with a default countdown of 2 hours.

**Lighted Switch**

To help locate the switch button in a dark room, an amber LED illuminates the ON/OFF button while the controlled load is OFF. When the load is ON, the LED is OFF.
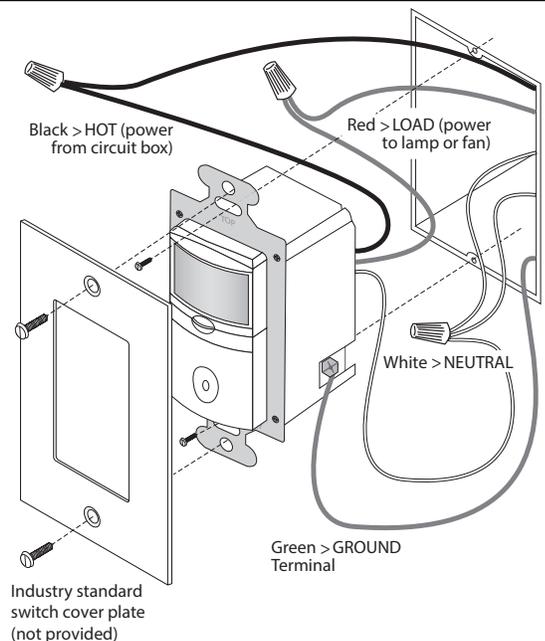

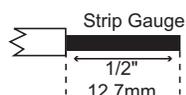

---

### ⚡ WARNING ⚡
**DISCONNECT POWER AT THE CIRCUIT BREAKER BEFORE INSTALLING THIS PRODUCT.**

**ONLY CONNECT THE RT-200 TO A SINGLE POLE CIRCUIT. THE RT-200 IS NOT SUITABLE FOR 3-WAY SWITCHING.**

**IF THE EXISTING WIRING DOES NOT MATCH THE DESCRIPTION FOR A SINGLE POLE CIRCUIT, YOU SHOULD CONSULT WITH A QUALIFIED ELECTRICIAN.**

---

## INSTALLATION & WIRING

1. **Prepare the switch box**
   After the power is turned OFF at the circuit breaker box, remove the existing wall plate and mounting screws. Pull the old switch from the wall box.

2. **Identify the type of circuit**
   In a single pole circuit, two single wires connect to two screws on the existing switch. A ground wire may also be present and connected to a ground terminal on the old switch. A neutral wire should also be present in the wall box.

3. **Prepare the wires**
   Tag the wires currently connected to the existing switch, so that they can be identified later. Disconnect the wires. Make sure the insulation is stripped off the wires to expose their copper cores to the length indicated by the "Strip Gauge" (approximately ½ inch).

Strip Gauge
1/2"
12.7mm

Black > HOT (power from circuit box)

Red > LOAD (power to lamp or fan)

White > NEUTRAL

Green > GROUND Terminal

Industry standard switch cover plate (not provided)

4. **Wire the time switch**

   Twist the existing wires together with the wire leads on the RT-200 as indicated in the table below. Cap them securely using the wire nuts provided.

   | Power wire from the circuit (hot) | to | Black wire on RT-200 |
   |---|---|---|
   | Power wire from the lamp or fan (load) | to | Red wire on RT-200 |
   | Neutral wires from the circuit | to | White wire on RT-200 |
   | Ground wire from the circuit | to | Ground terminal on RT-200 |
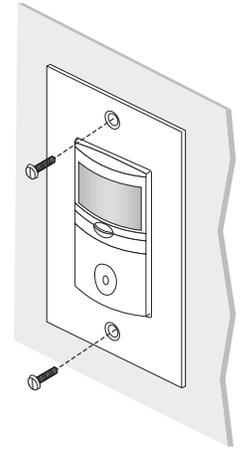

5. **Put the RT-200 in the wall box with the display positioned above the ON/OFF button.**

   Secure it to the wall box with the screws provided.

6. **Install cover plates.**

   Install industry standard decorator wall switch cover plate (not included).

7. **Restore power to the circuit.**

   Turn on the breaker or replace the fuse.

## SETUP

To access the programming buttons, place the tip of a flat head screwdriver behind the lip at the top of the **ON/OFF** button and pull the button toward you. Slide the **ON/OFF** button down over the wallplate.
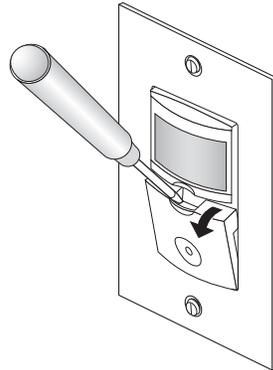

**Buttons**

The three programming buttons are used to set up the astronomic time switch according to the user's preferences and location.

Display
Center Button Select/Save

Menu/Raise ↑
Save/ Select
Slide Down ON/OFF Button
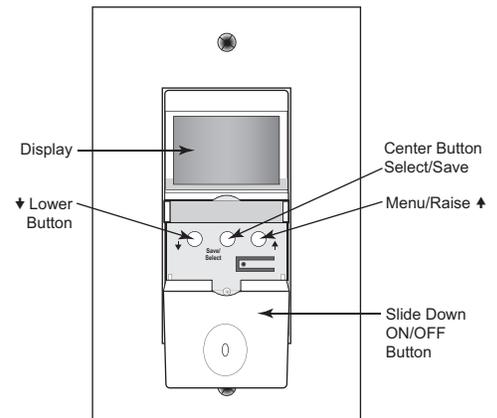

**RT-200 Menu Options**

Once in the **SETUP** menu if there is no activity for 10 minutes, the unit automatically exits out to the **MAIN PAGE**.

From the standard display, known as the **"MAIN PAGE"** press and release the ↑ button to enter **SETUP** menu.

Press the ↓ button to move to desired **SETUP** menu option.

When the option that you want to program is highlighted, press the **center** button.

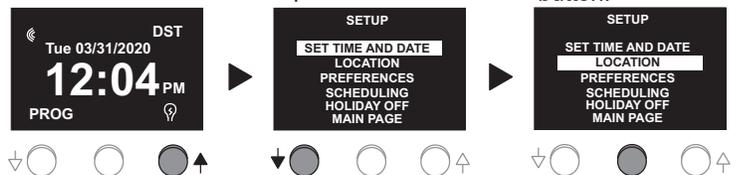

## VIEWING SETTINGS

Once the RT-200 has been completely set up, it is possible to see the various programs without needing to enter the **SETUP** menu. From the **MAIN PAGE** press and hold the **ON/OFF** button. After 5 seconds the display changes to show the sunrise and sunset time. Continue to press and hold the **ON/OFF** button. The display will cycle through the 8 programs. Once the RT-200 has completed this cycle, it will continue to cycle through the programs as long as the button is being pressed.

## MANUAL-ON

When the lights are turned **ON** manually, the word **MANUAL** appears on the bottom left corner of the display (replacing **PROG)**. The default manual override time of the switch is 2 hours, and can be programmed to a countdown of NONE, 5, 10, 15 minutes or 1-6 hours. For example, if the countdown timer was scheduled to 2 hours, a load was scheduled to turn OFF at 10:00 PM, and a user turns the load ON at 10:15 PM, the lights will remain ON until 12:15 AM. If the load was scheduled to turn ON at 6:00 AM and the load is manually turned OFF at 9:30 AM, the load will remain OFF until 6:00 AM the following day or until manually turned ON.

When the load is ON the light bulb on the lower right corner of the display on the **MAIN PAGE** will have light beams surrounding it. When the connected load is OFF, the light beams will disappear.

## POWER FAILURE

In the event of a loss of power to the RT-200, the unit will maintain the correct time, location and settings for 72 hours.

## SET TIME AND DATE MENU

Within the **SET TIME AND DATE** menu you will enter the correct time, date and Daylight Savings Time (DST) start and end days. The unit is shipped with the correct DST start and end dates already programmed.

| Setting | Steps |
|---|---|
| **TIME** | |
| Hour | 1. From the **SETUP** menu highlight **SET TIME AND DATE** and press the **center** button. **TIME** should be highlighted.<br>2. Press the **center** button to highlight hour.<br>3. Press the ↓ button to decrease the hour or the ↑ button to increase the hour.<br>4. Press the **center** button to save hour setting and move highlighted cursor to minute. |
| Minute | 1. Press the ↓ button to decrease the minute or the ↑ button to increase the minute.<br>2. Press the **center** button to save time setting. |
| **DATE** | 1. Press the ↓ button to highlight **DATE**. |
| Month | 1. Press the **center** button to highlight month.<br>2. Press the ↓ button to decrease the month or the ↑ button to increase the month.<br>3. Press the **center** button to save month setting and move highlighted cursor to day. |
| Day | 1. Press the ↓ button to decrease the day or the ↑ button to increase the day.<br>2. Press the **center** button to save day setting and move highlighted cursor to year. |
| Year | 1. Press the ↓ button to decrease the year or the ↑ button to increase the year.<br>2. Press the **center** button to save year setting. |
| **DST** (DAYLIGHT SAVINGS TIME) | Factory Default Setting: **DST ENABLED** (The unit will automatically adjust for Daylight Savings Time).<br>Press the ↓ button to highlight **DST** |
| DST<br>When enabled, DST appears in the upper right corner of the MAIN PAGE. | 1. Press the **center** button to highlight **ENABLED**.<br>2. Press the ↑ button to switch between **ENABLED** and **DISABLED**.<br>3. Press the **center** button to save **DST** setting. |
| Start - Week (Input week when DST starts) | 1. Press the ↓ button to highlight **START**. Press the **center** button to highlight 1st.<br>2. Press the ↓ button to decrease the week of the month or the ↑ button to increase the week of the month.<br>3. Press the **center** button to save the week and move highlighted cursor to the month. |
| Start – Month (Input month when DST starts) | 1. Press the ↓ button to decrease the start month or the ↑ button to increase the start month.<br>2. Press the **center** button to save month. |
| End – Week | 1. Press the ↓ to highlight End.<br>2. Follow same steps for Start – Week. |
| End – Month | Follow same steps for Start - Month. |

To exit **SET TIME AND DATE** menu, press the ↓ button to highlight **PREVIOUS** menu. Press the **center** button to select and return to the **SETUP** menu.

## LOCATION MENU

Within the **LOCATION** menu you will be required to enter the local longitude/latitude coordinates and time zone. If you do not know this information, we have included a list of the major US cities on page 5. You can also find latitude and longitude lookup tools on the internet. One example is www.latlong.net.

| Setting | Steps |
|---|---|
| **TIME ZONE** | 1. From the **SETUP** menu highlight **LOCATION** and press the **center** button. **TIME ZONE** should be highlighted.<br>2. Press the **center** button to select the time zone.<br>3. Press the ↓ button to decrease the time zone or the ↑ button to increase the time zone.<br>4. Press the **center** button to save time zone setting. |
| **LONGITUDE** | 1. Press the ↓ button to highlight **LONGITUDE**.<br>2. Press the **center** button to select the longitude<br>3. Press the ↓ button to decrease the longitude or the ↑ button to longitude the time zone.<br>4. Press the **center** button to save longitude setting. |
| **LATITUDE** | 1. Press the ↓ button to highlight **LATITUDE**.<br>2. Press the **center** button to select the latitude.<br>3. Press the ↓ button to decrease the latitude or the ↑ button to latitude the time zone.<br>4. Press the **center** button to save latitude setting. |

To exit the **LOCATION** menu, press the ↓ button to highlight **PREVIOUS MENU**. Press the **center** button to select and return to the **SETUP** menu. Once the location information is entered, return to the **MAIN PAGE** and press the left button. This will display the sunrise and sunset times. Use this as a check to validate that the location information has been entered in correctly.

## COVER PLATES

Wattstopper RT wall switches fit behind industry standard decorator style switch cover plates.

## TROUBLESHOOTING

Lighted switch is **OFF**, no load response to **ON/OFF** button press:
- Make certain that the circuit breaker is on and functioning.

Lighted switch is **ON**, no load response to **ON/OFF** button press:
- Check the light bulb and/or motor switch on the fan mechanism.

**NOTE:** If load does not respond properly after following troubleshooting, turn OFF power to the circuit then check wire connections or call technical support.

## PREFERENCES

The **PREFERENCES** menu allows the user to customize the unit's features including the time/date format, sound and flash.

- **Time format** – choose between a 12-hour or 24-hour format
- **Date format** – choose between **MM/DD/YY** or **DD-MM-YY**
- **Sound** – When **SOUND** is enabled the RT-200 will beep every 5 seconds when the load is going to be turned OFF in less than a minute. It will also beep each time the user presses the ↑, the **center**, or the ↓ button. A small ear icon will appear on the **MAIN PAGE** when sound is enabled.
- **Flash** – When **FLASH** is enabled the RT-200 turns OFF the load for 1 second and then turns it back ON to warn the user that the load is turning OFF in 1 minute. When flash is enabled, a lightening bolt icon will appear on the **MAIN PAGE.**
- **Countdown** – When **COUNTDOWN** is enabled, the manual override to turn a load ON times out. Default countdown of manual override is 2 hours, but this can be adjusted or disabled. Available values: None, 5 min, 10 min, 15 min, 30 min, 1 hr, 2 hr, 3hr, 4 hr, 5 hr, or 6 hr.

| Setting | Steps |
| --- | --- |
| TIME FORMAT | 1. From the **SETUP** menu highlight **PREFERENCES** and press the **center** button. **TIME FMT** should be highlighted.<br>2. Press the **center** button to select time format.<br>3. Press the ↑ button to change format.<br>4. Press the **center** button to save time format setting and to move highlighted cursor back to **TIME FMT**. |
| DATE FORMAT | 1. Press the ↓ button to highlight **DATE FMT**. Press the **center** button to select date format.<br>2. Press the ↑ button to change format.<br>3. Press the **center** button to save date format. |
| SOUND ≪ | 1. Press the ↓ button to highlight **SOUND**. Press the **center** button to select the sound setting.<br>2. Press the ↑ button to enable or disable sound.<br>3. Press the **center** button to save setting. |
| FLASH ⚡ | 1. Press the ↓ button to highlight **FLASH**. Press the **center** button to select the flash setting.<br>2. Press the ↑ button to enable or disable flash.<br>3. Press the **center** button to save setting. |
| COUNTDOWN | 1. Press the ↓ button to highlight **COUNTDOWN**. Press the **center** button to select the countdown setting.<br>2. Press the ↑ button or ↓ button to select the countdown time.<br>3. Press the **center** button to save setting. |

To exit the **PREFERENCES** menu, press the ↓ button to highlight **PREVIOUS MENU**. Press the **center** button to select and return to the **SETUP** menu.

## SCHEDULING

The RT-200 has 8 programs allowing the user flexibility in setting schedules to turn the connected load ON/OFF.

| Setting | Steps |
| --- | --- |
| **PROGRAM** | From the **SETUP** menu highlight **SCHEDULING** and press the **center** button. **PROGRAM** should be highlighted.<br>Press the **center** button to select program #.<br>Press the ↓ button to decrease the program and the ↑ button to increase the program #.<br>Press the **center** button to save the program #. |
| Day(s) - Set the days of the week the lights will turn ON for that particular program | Press the ↓ button to highlight **DAY(s)**. Press the **center** button to select the days when the program will operate.<br>Press the ↑ to choose the day(s); choices include:<br>None (program is not in use).<br>All (program turns ON the connected load every day).<br>Mon – Fri (program turns ON the connected load Monday through Friday).<br>Weekends (program turns ON the connected load Saturday and Sunday.<br>Each individual day of the week (choose the day of the week that the connected load should turn ON).<br>Press the **center** button to save setting. |
| ON – Program the time the connected load turns ON | Press the ↓ button to highlight ON. Press the **center** button to select what time the load will turn on.<br>Press the ↑ to set the ON time; choices include:<br>TIME (program a specific time to turn ON the load).<br>DUSK (program up to 99 minutes before or after dusk for the load to turn ON. Note: this is one of the reasons that it is important that the correct time zone, longitude/latitude coordinates are entered so that the time switch can determine when dawn and dusk will take place).<br>DAWN (program up to 99 minutes before or after dawn for the load to turn ON.<br>Press the center button to save setting. |
| OFF – Program the time the connected load turns OFF | Press the ↓ button to highlight OFF. Press the **center** button to select what time the load will turn OFF.<br>Press the ↑ to set the OFF time; choices are the same as for the ON time.<br>Press the **center** button to save setting. |

Follow the same steps to set Programs 1-8.

**NOTE:** For holidays, set a schedule for each individual day of week, and then change day to "None" for holiday shutoff.

To exit the **SCHEDULING** menu, press the ↓ button to highlight **PREVIOUS** menu. Then press the **center** button to select and return to the **SETUP** menu.

## HOLIDAY OFF

The HOLIDAY OFF menu allows the user to set specific dates and duration that loads will be turned Off, There are 16 memory settings, allowing for programming of up to 16 different holidays.

- **Holiday**– Valus of 1 through 16.
- **Status**– choose between DISABLED or ENABLED
- **Start Date**– Set the date to beigin the HOLIDAY OFF function.
- **Duration** – The number of days the Holiday Off function will be active. Values of 1 though 99, default setting is 1.

| Setting | Steps |
|---------|-------|
| HOLIDAY | 1. From the **SETUP** menu highlight **HOLIDAY OFF** and press the **center** button. **HOLIDAY** should be highlighted. <br> 2. Press the **center** button to select the program#. <br> 3. Press the ↑ or ↓ buttons to increase the program #. <br> 4. Press the **center** button to set the selected program # as the one being edited. |
| STATUS | 1. Press the ↓ button to highlight **STATUS**. Press the **center** button to select date format. <br> 2. Press the ↑ button to enable or disable the status. <br> 3. Press the **center** button to save the status. |
| START DATE | 1. Press the ↓ button to highlight **START DATE**. Press the **center** button to select the days, months, and years. <br> 2. Press the ↑ or ↓ buttons to increase or decrease the months, days, or years value. <br> 3. Press the **center** button to save the date. |
| DURATION | 1. Press the ↓ button to highlight **DURATION**. Press the **center** button to select number of days the load will turn OFF beginning when **START DATE** occurs (provided the **STATUS** is enabled). <br> 2. Press the ↑ or ↓ buttons to enable or increase or decrease the **DURATION** value. <br> 3. Press the **center** button to save setting. |

To exit the **PREFERENCES** menu, press the ↓ button to highlight **PREVIOUS MENU**. Press the **center** button to select and return to the **SETUP** menu.

## PRODUCT RESET

The RT-200 has a reset button located under the ON/OFF button. If the unit has lost power for an extended period of time (more than 72 hours) and the unit appears to be functioning abnormally (the display is not on or lights are not turning ON/OFF according to the appropriate schedule), it may be necessary to reset the unit. Press and release the reset button. The display will reset so that the Legrand logo appears as it does upon initial power up. At this point, the user will be able to set the date, time and location and reset the programs.
