Delivering Power Right Where It's Needed

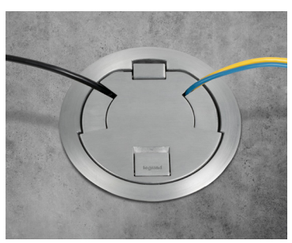

Legrand's connections bring dependable power right where it's needed to promote patient healing and enable staff efficiency. We provide each space in your facility with adaptable power for both the planned and the unexpected.

Healthcare is now technology-dependent – and a strong electrical infrastructure is the pulse powering your facility to perform at its best.

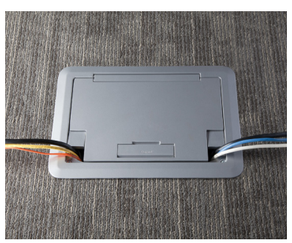

Patient Waiting Rooms and Lobbies

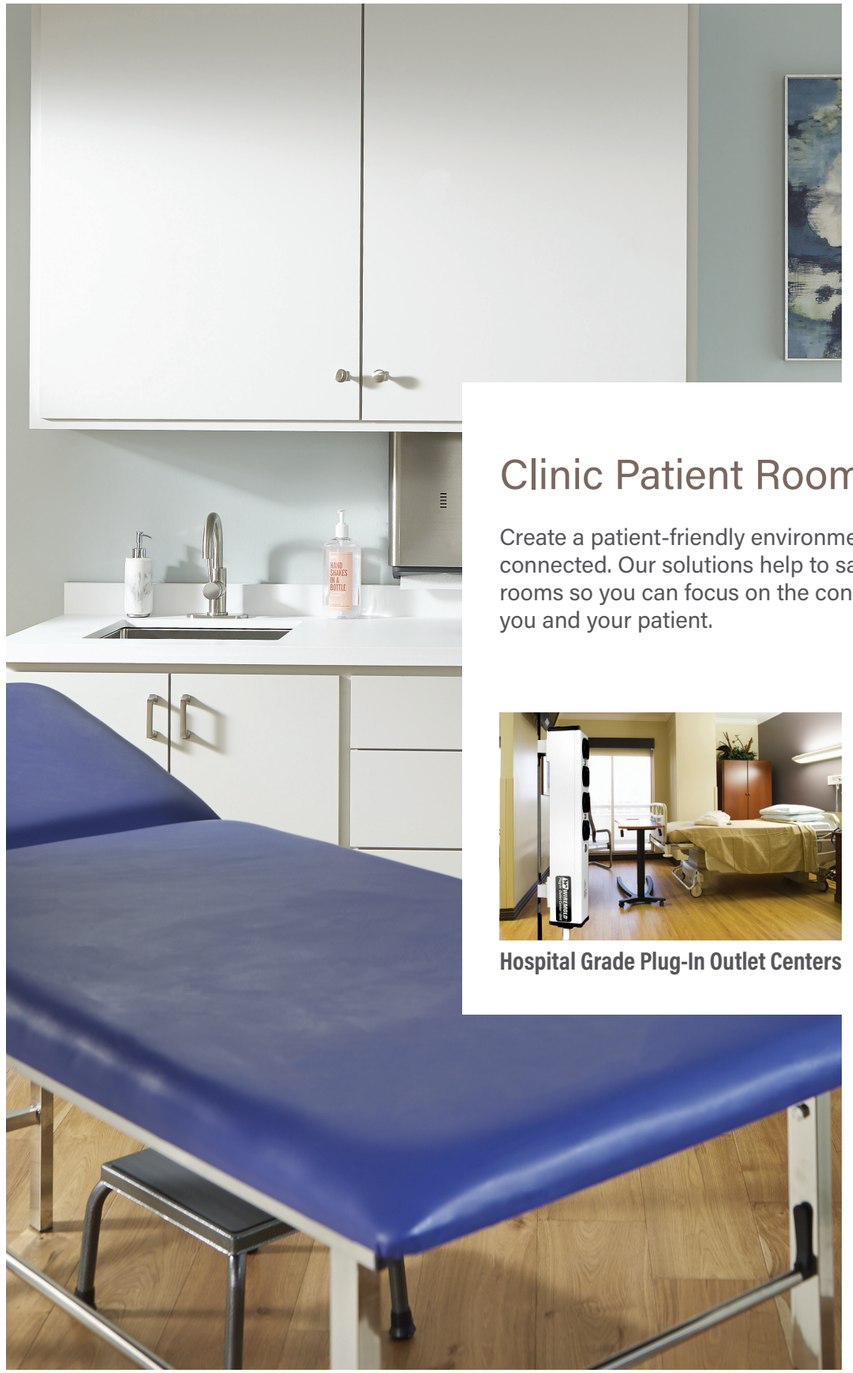

Smooth patient check-ins. Safe, open lobbies for patients and staff. Internet and infotainment access. All designed to aesthetically blend in with your facility space.

Evolution™ Poke-Thru Devices

Evolution™ Floor Boxes

Clinic Patient Rooms

Create a patient-friendly environment that is comfortable and connected. Our solutions help to safely power prep your clinic rooms so you can focus on the connection that matters most – you and your patient.

Hospital Grade Plug-In Outlet Centers

Chemical-Resistant Switches

Workstations and Labs

Make workstations and labs work for you. A range of our solutions help support your healthcare team by reducing eye-strain to provide real-time access to patient information.

Plugmold® Multioutlet Systems

Prewired Raceway

Power Poles

High-Traffic Emergency Rooms, Operating Rooms and Hospital Rooms

Don't wrangle with makeshift power setups and risk losing precious connections. Our code-compliant solutions are designed specifically for high-traffic areas, new power setups and temporary solutions.

Turnlok® Locking Plugs and Connectors

Hospital Grade GFCI with Power Indication

The Power to Persevere

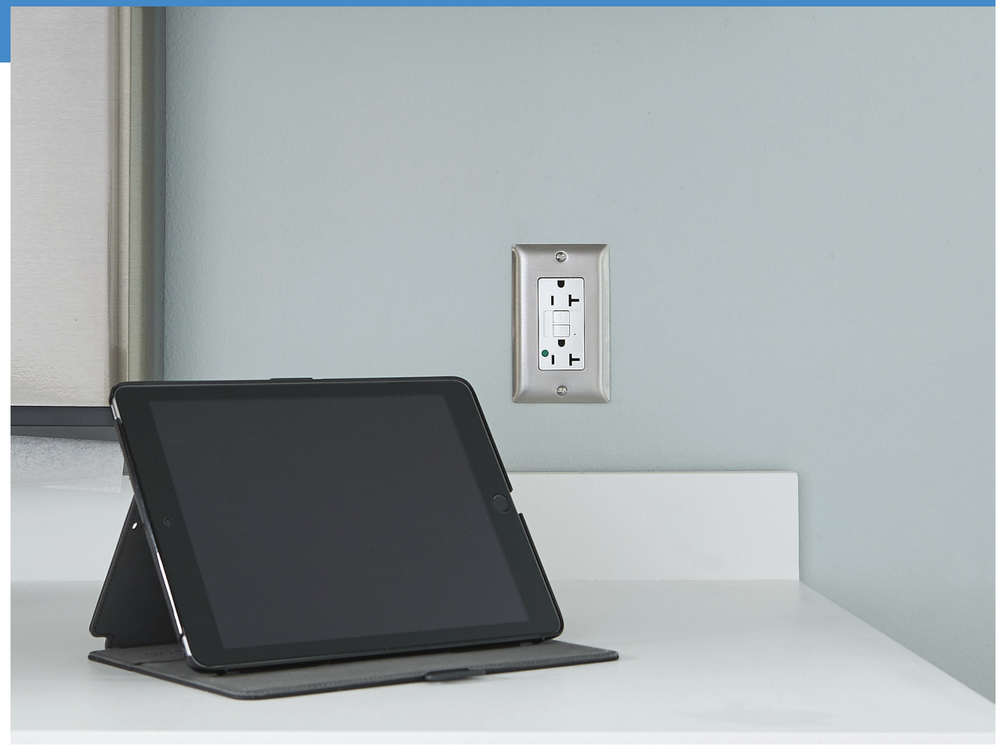

Change is inevitable in healthcare-- and electrical wiring must support every evolution. Legrand anticipates evolving needs with products that adapt to new requirements and updated electrical codes.

And – most importantly – we deliver dependable power during critical moments when failure is not an option.

PlugTail®

Future-proof your healthcare projects with PlugTail Wiring Devices. Perfect for healthcare wiring installations, PlugTail installs 5x faster than conventional wiring devices. With its ability to easily swap out and upgrade, PlugTail is a cost-effective way to address a building's electrical requirements of today -- and tomorrow.

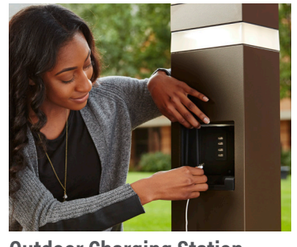

Outdoor Spaces That Heal

Green spaces are therapeutic for both patients and healthcare staff. And with Legrand's weather-safe electrical and digital solutions, your facility's outdoor space can become a vital extension of your building and its quality care.

Whether it's a patient spending time in a healing garden or a doctor stepping outside for some revitalizing fresh air, Legrand can seamlessly meet your outdoor wiring and power needs so your healthcare facility can foster a healing environment both inside and out.

Outdoor Ground Box

Outdoor Charging Station

Outdoor Power Pedestal

Committed To A More Sustainable World

At Legrand, we build sustainability into everything we do. We are committed to developing solutions that enable high performance healthcare buildings, reduce the environmental impact of our operations and transform how people live and work.
